Kaplan Guide To Successful Writing:

Clinical Guide to Effective Psychological Assessment and Report Writing Rosemary Flanagan, 2024-09-17 The book examines the preparation and presentation of psychological data reports for various stakeholders e.g. teachers, parents, caregivers. It details strategies for clear and effective prose and visuals that reach beyond the narrative and emphasize data integration. Chapters are organized around specific themes contained in the overall report and its sections e.g. cognitive achievement, social, emotional, personality, as well as the process of data reporting, its description, and eventual communication to consumers. The volume addresses the rationale for and considerations important to carrying out this mission, including reporting and explaining data obtained from English language learners (ELLs). It provides examples of sample data sets detailing how to apply and illustrate these principles and reflect contemporary data interpretation. In addition, the book provides checklists as well as appendices and tables that should be considered when preparing reports. The book discusses the processes and mechanics of integrating data within and across sections of reports, thereby providing alternatives to strictly boilerplate reports as well as practical recommendations that can be readily implemented to benefit students. Key areas of coverage include: Preparing psychological reports for all stakeholders; Data presentations for lay audiences; Contemporary data reporting not driven by a boilerplate; Illustrations of data integration and customized prose; Generating intervention recommendations for students using descriptive data; Tailoring the writing process to create defensible reports for school, clinical, and neuropsychological referrals. This volume is an essential resource for researchers, professors, graduate students, as well as clinicians, therapists, and other professionals in developmental, clinical, child, and school psychology, educational assessment, testing, and evaluation, social work, public health, and all interrelated disciplines. **Ease Seminar**

Kaplan, 2014-09-25. This book undertakes a general framework within which to consider the complex nature of the writing task in English, both as a first and as a second language. The volume explores varieties of writing for different purposes for learning to write extended text and cross-cultural variation among second language writers. The volume overviews textlinguistic research, explores process approaches to writing, discusses writing for professional purposes and contrastive rhetoric. It proposes a model for text construction as well as a framework for a more general theory of writing. Later chapters, organized around seventy-five themes for writing instruction, are devoted to the teaching of writing at the beginning, intermediate, and advanced levels. Writing assessment and other means for responding to writing are also discussed. William Grabe and Robert Kaplan summarise various theoretical strands that have been recently explored by applied linguists and other writing researchers and draw these strands together into a coherent overview of the nature of written text. Finally, they suggest methods for the teaching of writing consistent with the nature, processes, and social context of writing. **Kaplan GMAT 2016 Strategies, Practice, and Review with 2 Practice Tests** Kaplan, 2015-08-12.
