Michael Savage Pew Report:

The Morality of Drone Warfare and the Politics of Regulation Marcus Schulzke, 2016-10-26 This book discusses the moral and legal issues relating to military drones focusing on how these machines should be judged according to the principles of just war theory The author analyses existing drones like the Predator and Reaper but also evaluates the many types of drones in development The book presents drones as not only morally justifiable but having the potential to improve compliance with the principles of just war and international law Realizing this potential would depend on developing a sound regulatory framework which the book helps to develop by considering what steps governments and military forces should take to promote ethical drone use It also critically evaluates the arguments against drones to show which should be abandoned and which raise valid concerns that can inform regulations

Blowing Smoke Michael Wolraich, 2010-10-12 In time for the fall elections Wolraich pens a witty and penetrating political analysis of the wacky world of rightwing persecution politics mixing polemic history and strategy

The Future of Islam John L. Esposito, 2010-02-04 John L Esposito is one of America s leading authorities on Islam Now in this brilliant portrait of Islam today and tomorrow he draws on a lifetime of thought and research to sweep away the negative stereotypes and provide an accurate richly nuanced and revelatory account of the fastest growing religion in the world Here Esposito explores the major questions and issues that face Islam in the 21st century and that will deeply affect global politics Are Islam and the West locked in a deadly clash of civilizations Is Islam compatible with democracy and human rights Will religious fundamentalism block the development of modern societies in the Islamic world Will Islam overwhelm the Western societies in which so many Muslim immigrants now reside Will Europe become Eurabia or will the Muslims assimilate Which Muslim thinkers will be most influential in the years to come To answer this last question he introduces the reader to a new generation of Muslim thinkers Tariq Ramadan Timothy Winter Mustafa Ceriç Amina Wadud and others a diverse collection of Muslim men and women both the Martin Luthers and the Billy Grahams of Islam We meet religious leaders who condemn suicide bombing and who see the killing of unarmed men women and children as worse than murder who preach toleration and pluralism who advocate for women s rights The book often underscores the unexpected similarities between the Islamic world and the West and at times turns the mirror on the US revealing how we appear to Muslims all to highlight the crucial point that there is nothing exceptional about the Muslim faith Recent decades have brought extraordinary changes in the Muslim world and in addressing all of these issues Esposito paints a complex picture of Islam in all its diversity a picture of urgent importance as we face the challenges of the coming century

The Brainwashing of My Dad Jen Senko, 2021-10-05 After her beloved dad got addicted to right wing talk radio and Fox News Jen Senko feared he would never be the same again

Frank Senko had always known how to have a good time. Despite growing up in a poverty stricken family during the Depression and having to fight his way to middle class status as an adult, he tended to look on the bright side. But after a job change forced Frank to begin a long car commute every day, his daughter Jen noticed changes in his personality and beliefs. Long hours on the road listening to talk radio commentators like Rush Limbaugh sucked her father into a suspicion laden worldview dominated by conspiracy theories, fake news, and rants about the coastal elite and libtards trying to destroy America. Over the course of a few years, Jen's dad went from a nonpolitical, open minded Democrat to a radical, angry and intolerant right wing devotee who became a stranger to those closest to him. As politics began to take precedence over everything else in her father's life, Jen was mystified. What happened to her dad? Was there anything she could do to help? And most importantly, would he ever be his lovable self again? Jen began the search for answers and found them as well: stories from countless other families like her own. Based on the award winning documentary *The Brainwashing of My Dad*, which uncovers the alarming right wing strategy to wield the media as a weapon against our very democracy, Jen's story shows us how Fox News and other ultra conservative media outlets are reshaping the way millions of Americans view the world and encourages us to fight back.

Unequal America Anthony DiMaggio, 2020-12-09 This book examines Americans and their beliefs about the class divide in the United States. It argues that Americans' beliefs about class and the economic divide develop through a multistep process. Economic affluence influences the development of worldview measured in terms of ideology, partisanship, and self identified class consciousness. Class consciousness in turn affects how people look at political and economic issues. This book is intended for scholars and students at every level who study inequality from a political, economic or sociological position, along with general readers with a growing interest in and awareness of the effects of inequality on our democracy, especially in the wake of the Covid 19 pandemic, the resulting economic contraction, and the protests over racial injustice erupting throughout the world in 2020.

Values, Voice and Virtue Matthew Goodwin, 2023-03-30 THE SUNDAY TIMES BESTSELLER A Financial Times 2023 book to watch. Forceful. The fundamental thrust of Goodwin's argument is right: a new centre ground of British politics is being formed, even if both parties have yet to fully comprehend it. The Times. What has caused the recent seismic changes in British politics, including Brexit and a series of populist revolts against the elite? Why did so many people want to overturn the status quo? Where have the Left gone wrong? And what deeper trends are driving these changes? British politics is coming apart. A country once known for its stability has recently experienced a series of shocking upheavals. Matthew Goodwin, acclaimed political scientist and co author of *National Populism*, shows that the reason is not economic hardship, personalities, or dark money. It is a far wider political realignment that will be with us for years to come. An increasingly liberalised, globalised ruling class has lost touch with millions who found their values ignored, their voices unheard, and their virtue denied. Now this new alliance of voters is set to determine Britain's fate. Sunday Times bestseller April 2023.

The Coming of Neo-Feudalism Joel Kotkin,2023-01-10 Following a remarkable epoch of greater dispersion of wealth and opportunity we are inexorably returning towards a more feudal era marked by greater concentration of wealth and property reduced upward mobility demographic stagnation and increased dogmatism If the last seventy years saw a massive expansion of the middle class not only in America but in much of the developed world today that class is declining and a new more hierarchical society is emerging The new class structure resembles that of Medieval times At the apex of the new order are two classes a reborn clerical elite the clerisy which dominates the upper part of the professional ranks universities media and culture and a new aristocracy led by tech oligarchs with unprecedented wealth and growing control of information These two classes correspond to the old French First and Second Estates Below these two classes lies what was once called the Third Estate This includes the yeomanry which is made up largely of small businesspeople minor property owners skilled workers and private sector oriented professionals Ascendant for much of modern history this class is in decline while those below them the new Serfs grow in numbers a vast expanding property less population The trends are mounting but we can still reverse them if people understand what is actually occurring and have the capability to oppose them

At War with Metaphor Erin Steuter,Deborah Wills,2009-07-15 When photographs documenting the torture and humiliation of prisoners at Abu Ghraib came to the attention of a horrified public national and international voices were raised in shock asking how this happened At War with Metaphor offers an answer arguing that the abuses of Abu Ghraib were part of a systemic continuum of dehumanization This continuum has its roots in our public discussions of the war on terror and the metaphors through which they are repeatedly framed Arguing earnestly and incisively that these metaphors if left unexamined bind us into a cycle of violence that will only be intensified by a responsive violence of metaphor Steuter and Wills examine compelling examples of the images of animal insect and disease that inform shape and limit our understanding of the war on terror Tying these images to historical and

contemporary uses of propaganda through a readable accessible analysis of media filters At War with Metaphor vividly explores how news media including political cartoons and talk radio are enmeshed in these damaging dehumanizing metaphors Analyzing media through the lenses of race and Orientalism it invites us to hold our media and ourselves accountable for the choices we make in talking war and making enemies

Gratuitous Angst in White America Deena A. Isom, 2023-12-19 *Gratuitous Angst in White America* presents a new criminological theory that explains the racialized experiences of white people Unlike orthodox traditions that assume whiteness as normative or progressive traditions that center the experiences of the marginalized and oppressed the theory of whiteness and crime flips those perspectives and turns a lens toward white people's lived experiences and the ideologies of whiteness The theory of whiteness and crime answers two overarching questions How does being white impact one's likelihood of engaging in deviant criminal and or violent behaviors And why are white people treated differently than other racial and ethnic groups by the criminal legal system Through the application of a critical whiteness perspective to criminology the theory of whiteness and crime is an intersectional and integrated framework that explains within and between group differences in negative behaviors and entanglements with the criminal legal system This book examines the racialized history of America to contextualize the current racial strife in society and inform a more nuanced theoretical approach to explaining disparities The reader will gain a socio historical understanding of the depths of the current divides and insight into how such are perpetuated and potentially dismantled Students will see connections between various theoretical traditions and an application of theory to current social conditions Researchers will acquire a new theoretical foundation and propositions to ground empirical work that will fill extensive gaps in the criminological literature And policy makers will see how oversights in understanding the depths of historical significance perpetuate and increase disparities and disadvantages which are counter to a pursuit of justice Written in a compelling and direct way this book will appeal to those in criminology sociology race and ethnic studies gender and sexuality studies political science cultural studies psychology criminal justice law and beyond *Gratuitous Angst in White America* is essential for those seeking a more complete understanding of the associations between race and crime and those who want to remedy those disparities In the end it is more than a new theory of crime it is a call to action for all willing to hear

Ethics and International Relations Richard Ned Lebow, 2020-10-01 Lebow demonstrates that foreign policies consistent with generally accepted ethical norms are more likely to succeed and those at odds with them to fail Constructing original data sets and analyzing multiple case studies Lebow makes an empirical case for ethics in international relations His approach looks to create a productive dialogue between those who ask primarily ought questions and those who pose is questions The former want to establish appropriate criteria for the behaviour of state and non state actors and the discourses that lead to their policy decisions whereas scholars who pose is questions are concerned with how political actors behave and the principles and assumptions that might explain their behaviour Lebow bridges the gap between is and ought questions by

making an instrumental argument in favour of ethical foreign policy He examines policymaking as well as policy offering ethical guidelines for policymaking that are likely to result in more successful policies *All-American Nativism* Daniel Denvir,2020-01-14 American history told from the vantage of immigration politics It is often said that with the election of Donald Trump nativism was raised from the dead After all here was a president who organized his campaign around a rhetoric of unvarnished racism and xenophobia Among his first acts on taking office was to block foreign nationals from seven predominantly Muslim countries from entering the United States But although his actions may often seem unprecedented they are not as unusual as many people believe This story doesn't begin with Trump For decades Republicans and Democrats alike have employed xenophobic ideas and policies declaring time and again that illegal immigration is a threat to the nation's security wellbeing and future The profound forces of all American nativism have in fact been pushing politics so far to the right over the last forty years that for many people Trump began to look reasonable As Daniel Denvir argues issues as diverse as austerity economics free trade mass incarceration the drug war the contours of the post 9 11 security state and yes Donald Trump and the Alt Right movement are united by the ideology of nativism which binds together assorted anxieties and concerns into a ruthless political project *All American Nativism* provides a powerful and impressively researched account of the long but often forgotten history that gave us Donald Trump Politics on Demand Alison

Dagnes,2010-03-23 This riveting book provides a nonpartisan examination of how the technological changes and financial imperatives of the media have led to an entertainment driven news system poorly suited to report on American politics Taking on today's brave new world of political reporting *Politics on Demand* The Effects of 24 Hour News on American Politics examines how the technological changes and financial imperatives of the American media have led to an entertainment driven news system that cannot meet the needs of a democracy Free of partisan slant and easily accessible to all readers *Politics on Demand* explains the evolving media system showing how politicians use the media to sell themselves and how the media uses politicians to its own advantage The book demonstrates that with vast amounts of programming time to fill the spotlight has shifted away from substantive information to opinion which in turn has helped perpetuate partisan politics Politicians now have to contort themselves to fit within media confines and political discourse has become extreme and over simplified Combining insider interviews with facts statistics anecdotes and analysis the author herself a former C SPAN producer argues that the American media has become harmful for our nation and a detriment to our political system

imagery began to take over politics Ailes a young TV producer absorbed the lessons of the new video age and put them into practice While a director on The Mike Douglas Show he met Richard Nixon who soon hired Ailes to help him conquer the fledgling medium Riding the wave of that triumph Ailes went on to aid other key Republican figures like Ronald Reagan George H W Bush and Rudy Giuliani In the 1990s Ailes was hired to run CNBC the first cable financial network bringing a talk radio sensibility to the small screen Then Rupert Murdoch hired him to implement the media mogul's vision for a different kind of cable news network Now with Murdoch whose News Corp has recently acquired the Wall Street Journal Ailes is launching the FOX News business channel in 2007 Over the span of several decades Ailes has played a key role in the growing reach of conservatism first in politics then in mass media Part history part media criticism part current events Dark Genius tracks the rise dominance and relevance of political television and how it has been used and abused by its master

Answering Back David Coates, 2009-12-31 An essential toolkit for all progressives helping them to respond to the current sustained right wing criticism of US domestic and foreign policy The game is begun Rush Limbaugh said the day after Barack Obama won the presidency and he was right The clash of views on US domestic and foreign policy is if anything even more intense now than it was before the change of leadership in Washington Right wing media figures and Republican politicians regularly regale us with conservative criticisms of the realignment of policy and politics now underway Even more than in 2008 now is the time for liberals to answer back to counter those criticisms by both recognizing their content and locating their weaknesses In the great clash of parties and philosophies that will shape the next American century an informed citizenry will require more accurate information ideas and arguments than right wing radio characteristically provides and the market is wide open for a book that engages with both the worst and the best of the Republican case *Answering Back* is that book *Answering Back* intends to lift the quality of political discourse in the United States by bringing together the best conservative and the best liberal arguments on the eight key policy issues now in contention between the parties trickle-down economics and the role of public spending the desirability of welfare reform the future of social security the establishment of health care for all the possibility of comprehensive immigration control religious issues and the social agenda the war in Iraq and Afghanistan and the causes of the financial meltdown Each chapter begins with a brief introduction followed by conservative views and a point by point progressive response Each stage of each argument is labeled for easy memorization and the language used is deliberately jargon free to make the material as accessible as possible The sources of both conservative and progressive arguments and their supporting evidence are cited to open the door to further research *Answering Back* is a completely revised and expanded version of *A Liberal Toolkit* initially published by Praeger in 2007 This new version is a handbook of arguments data and sources that present today's key policy debates in an even handed and accessible manner This will be an essential tool for anyone interested in policy reform party politics and American politics It is written in a manner that is at one and the same time scholarly useful accessible and fun Media Representations of

Gender and Torture Post-9/11 Marita Gronnvoll, 2010-06-10 In this timely book Gronnvoll offers a feminist rhetorical examination of gender and torture looking at the media coverage of Abu Ghraib and Guantanamo Bay as well as recent popular entertainment television serials where torture appears as a plot device including 24 In exposing news media coverage to such scrutiny she finds that cases of American personnel engaging in torture achieved notoriety chiefly because of the fact that women were perpetrators The language of commentators suggests at least as much social outrage over the gender performance of the women as over the fact of torture being committed by Americans At the same time political and social discourses sketch a portrait of an intractable enemy in the form of the Muslim Other and betray a longing for a savior warrior hero who is capable of prevailing over this perceived evil Yet news coverage of Abu Ghraib and Guantanamo Bay suggests women warriors are socially perceived as lacking the necessary qualifications to be such saviors This finding provides a transition into an examination of popular entertainment television programs that feature male and female heroes as government agents engaged in fighting the war on terrorism Ultimately Gronnvoll's analysis suggests that a Western cultural longing for a savior is partially fulfilled through fictional programming portrayals of masculine warriors who engage in torture and remain heroic
