Michigan High School Report Card:

The Michigan Public High School Context and Performance Report Card Michael Van Beek, Daniel Bowen, Jonathan Mills, 2012-07-19 *The 2014 Michigan Public High School Report Card* Audrey Spalding, 2014-11-18 **Report Card on Washington's High Schools 2009** , **Moderator-topics** , 1922 *Record of Current Educational Publications* United States. Office of Education, 1919 *Monthly Record of Current Educational Publications* , 1914 *Charter School Report Card* Shawgi Tell, 2016-04-01 What is a charter school Where do they come from Who promotes them and why What are they supposed to do Are they the silver bullet to the ills plaguing the American public education system This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions It shows that charter schools as a whole lower the quality of education through the privatization and marketization of education The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements Society and its members need a fully funded high quality public education system open to all and controlled by a public authority **NAEP 1996 Mathematics State Report for Department of Defense Domestic Dependent Elementary and Secondary Schools** Clyde M. Reese, 1997 *Bulletin - Bureau of Education* United States. Bureau of Education, 1906 Report Cards Wade H. Morris, 2023-09-26 The definitive history of the report card Report cards represent more than just an account of academic standing and attendance The report card also serves as a tool of control and as a microcosm for the shifting power dynamics among teachers parents school administrators and students In *Report Cards A Cultural History* Wade H Morris tells the story of American education by examining the history of this unique element of student life In the nearly two hundred year evolution of the report card this relic of academic bookkeeping reflected broader trends in the United States the republican zealotry and religious fervor of the antebellum period the failed promises of postwar Reconstruction for the formerly enslaved the changing gender roles in newly urbanized cities the overreach of the Progressive child saving movement in the early twentieth century and by the 1930s the increasing faith in an academic meritocracy The use of report cards expanded with the growth of school bureaucracies becoming a tool through which administrators could surveil both student activity and teachers And by the late twentieth century even the most radical critics of numerical reporting of children have had to compromise their ideals Morris traces the evolution of how teachers students parents and administrators have historically responded to report cards From a western New York classroom teacher in the 1830s and a Georgia student in the 1870s who was born enslaved to a Colorado student incarcerated in the early 1900s and the son of Russian Jewish immigrants applying to college in the 1930s *Report Cards* describes how generations of people have struggled to maintain dignity within a system that reduces children to numbers on slips of paper **Education Reform in the American States** Jerry McBeath, Maria Elena Reyes, Mary Ehrlander, 2008-04-01 *Education Reform in the American States* is a timely evaluation of the accountability movement in American public education culminating in the No

Child Left Behind Act federal legislation of 2002 The authors treat the current accountability movement placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states prospects for meeting their NCLB targets The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students The audience for this study includes local state and federal education policy makers administrators and instructors in schools of education and other teaching programs educators and the general public *Resources in Education* ,2000 **NAEP 1996**
