*Ebook: Microeconomics, Global Edition* MCCONNELL, 2011-09-16 *Ebook Microeconomics Global Edition* Loose-leaf Microeconomics Brief Campbell McConnell, Stanley Brue, Sean Flynn, 2009-07-13 McConnell and Brue's Microeconomics Brief Edition comes from the same author team as the market leading Principles of Microeconomics textbook. It continues to be innovative while teaching students in a clear unbiased way. Like the 18th edition Microeconomics Brief Edition has 3 main goals: help the beginning student master the principles essential for understanding the economizing problem, specific economic issues, and the policy alternatives; help the student understand and apply the economic perspective and reason accurately and objectively about economic matters; and promote a lasting student interest in economics and the economy. Although the Brief Edition is a derivative of Microeconomics 18e, it is not a cut and paste book that simply eliminates several chapters of Economics 18e and reorders and renumbers the retained content. Instead, Microeconomics Brief Edition is a very concise, highly integrated economics textbook that is distinct in purpose, style, and coverage from Microeconomics 18e.

The Rhetoric of the Right David L. George, 2013 This study seeks to demonstrate the subtle ways in which changes in the language associated with economic issues are reflective of a gradual but quantifiable conservative ideological shift In this rigorous analysis David George uses as his data a century of word usage within The New York Times starting in 1900 It is not always obvious how the changes identified necessarily reflect a stronger prejudice toward laissez faire free market capitalism and so much of the book seeks to demonstrate the subtle ways in which the changing language indeed carries with it a political message This analysis is made through exploration of five major areas of focus economics rhetoric scholarship and the growing behavioral economics school of thought the discourse of government and taxation the changing meaning of competition and competitive changing attitudes toward labor and the celebration of growth relative to the decline in attention to economic justice and social equality
