

## What do I do if I have forgotten my lock code or security code?

Your phone's 4-digit unlock code is originally set to 1234, 0000 or the last 4 digits of your phone number.  
The 6-digit security code is originally set to 000000.

Your service provider may reset these codes before you receive your phone. If your service provider has not reset these codes, we recommend that you change them to prevent others from accessing your personal information. The unlock code must contain 4 digits, and the security code must contain 6 digits.

### If you forget an unlock code and/or security code:

- If you forget your unlock code, try entering 1234 or the last 4 digits of your phone number.
- If that does not work, press the **menu key**, in many phones this will bypass the unlock code screen, and the phone will now be asking for the security code.
- If you forget the security code, we will still assist you at no charge to unlock it by receiving the phone at the Motorola Repair Facility. Please note that is all that will be done at the center.
- If the unit is determined to have liquid or physical damage, then the service center will not unlock the phone. It will be RUR'd as with any physical or liquid damaged unit.
- The customer can also be referred to a LSC/MASC and advised to call ahead to ensure they have the proper tools and to check for any potential fees.

**\*REMEMBER:** In phones without Menu key, "CLR ", "Center Select Key", "BACK" or "H" should be used instead. [Some units won't allow to bypass the unlock code]

To change a code or password(if your phone doesn't display the options below please refer to your owner's manual in order to get to your Password Menu)

1. Press the **MENU** Key.
2. Press the Navigational Key to scroll to **SETTINGS**, and select this option.
3. Scroll to **Security** and select this option.
4. Scroll to **New Passwords** and select this option.
5. Select the type of code you wish to change.
6. Enter the old code when prompted, then enter the new code.

**FOR GSM UNITS:** If you forget your SIM lock, PUC, or call barring password, contact your service provider.

**For Newer Phones:** There may not be a Menu Key to bypass or take the shortcut to the screen that prompts for the Security code.
