2. An extension cord may be purchased and used if care is exercised in its use.
3. If an extension cord is used, the marked electrical rating of the extension cord must be at least 10 amps and 120 volts. The resulting extension cord must be arranged so that it will not drape over a countertop or tabletop where it can be pulled on by children or tripped over accidentally.

You can customize the length of the power cord so that it is the exact length you desire. To increase the length of the power cord: grasp the power cord near the bottom where it meets the base of the cord and pull it out. When you pull the cord out, it will extend the length of the power cord.
