Cadier, M. Light, 2015-06-30 This edited volume analyses the evolution and main determinants of Russia's foreign policy choices Containing contributions by renowned specialists on the topic the study sheds light on some of the new trends that have characterised Russia's foreign policy since the beginning of Vladimir Putin's third presidential term **Human Trafficking and Exploitation** Belachew Gebrewold, Johanna Kostenzer, Andreas Th. Müller, 2017-09-22 Human trafficking is a serious human rights violation that leads to the gross exploitation of its victims who are coerced into forced labor and slavery across the globe As the current migration movement and refugee situation reaches crisis point in Europe the risk of human trafficking from the Mediterranean Sea through Italy into Central and Western

Europe has become a critical emergency Focusing on human trafficking along this route into Europe this book discusses the systematic exploitation of victims and the subsequent violation of human rights within an international context providing an overview of the causes regulation and prevention of the issue Academic researchers practitioners and policy makers are brought together to provide both theoretical perspectives and practice based approaches for addressing the issue of human trafficking As well as scholarly contributions from experts in the field the book also includes experiences and strategies of policy makers and practitioners from governmental and non governmental organizations along with the real life scenarios and practice reports Human Trafficking and Exploitation should be considered essential reading for academics policy makers advocates and activists interested in preventing human trafficking and protecting human rights It will also be of interest to those with research interests within the broader themes of law politics and international relations and social and health policy

The End of Doom Ronald Bailey,2024-08-06 In the past five decades there have been many many forecasts of impending environmental doom They have universally been proven wrong Meanwhile those who have bet on human resourcefulness have almost always been correct In his widely praised book *Ecoscand* Ronald Bailey strongly countered environmentalist alarmism using facts to demonstrate just how wildly overstated many claims of impending ecological doom really were Now twenty years later the Reason Magazine science correspondent is back to assess the future of humanity and the global biosphere Bailey finds contrary to popular belief that many present ecological trends are quite positive Including Falling cancer incidence rates in the United States The likelihood of a declining world population by mid century The abundant return of agricultural land to nature as the world reaches peak farmland A proven link between increases in national wealth and reductions in air and water pollution Global warming is a problem but the cost of clean energy could soon fall below that of fossil fuels In *The End of Doom* Bailey avoids polemics and offers a balanced fact based and ultimately hopeful perspective on our current environmental situation Now isn't that a breath of fresh air

The European Handbook of Media Accountability Tobias Eberwein,Susanne Fengler,Matthias Karmasin,2017-11-08 In recent years the Leveson Inquiry in Great Britain as well as the EU High Level Group on Media Freedom and Pluralism have stirred heated debates about media accountability and media self regulation across Europe How responsible are journalists How well developed are infrastructures of media self regulation in the different European countries How much commitment to media accountability is there in the media industry and how actively do media users become involved in the process of media criticism via social media With contributions from leading scholars in the field of journalism and mass communication this handbook brings together reports on the status quo of media accountability in all EU members states as well as key countries close to Europe such as Turkey and Israel Each chapter provides an up to date overview of media accountability structures as well as a synopsis of relevant research exploring the role of media accountability instruments in each national setting including both media self regulation such as codes of ethics press councils ombudspersons and new instruments that involve

audiences and stakeholder groups such as media blogs and user comment systems A theoretically informed cross national comparative analysis of the state of media accountability in contemporary Europe this handbook constitutes an invaluable basis for further research and policy making and will appeal to students and scholars of media studies and journalism as well as policy makers and practitioners
