Namibia Examination Time Table 2015:

World Malaria Report 2015 World Health Organization, 2016-01-30 The World Malaria Report 2015 assesses global malaria disease trends and changes in the coverage and financing of malaria control programs between 2000 and 2015. It also summarizes progress towards international targets and provides regional and country profiles that summarize trends in each WHO region and each country with malaria. The report is produced with the help of WHO regional and country offices, ministries of health in endemic countries and a broad range of other partners. The data presented are assembled from the 96 countries and territories with ongoing malaria transmission and a further five countries that have recently eliminated malaria. Most data are those reported for 2014 and 2015, although in some cases projections have been made into 2015 to assess progress towards targets for 2015.

Portuguese as an Additional Language Ana C. Neves, 2019-12-16 This book focuses on Portuguese as an additional language and its young learners in three case studies within the Portuguese speaking world: Portuguese as a second language in Cape Verde, Portuguese as a heritage language in Switzerland, and Portuguese as a foreign language in Macao SAR. The term additional language is used as an umbrella term for all three contexts. An analysis of these three case studies is presented with a focus on the organization of explicit and implicit language policies with regards to population mobility and also motivational issues, language attitudes, and language use by the sample population.

Combating Election Irregularities in the 21st Century Carl W. Dundas, 2015-05-26 This work aims to promote the concept of reducing the incidence of election irregularities and requiring less intervention by the court or similar disputes resolution mechanisms. The essence of this new approach is to place much greater emphasis on drastically reducing errors through noncompliance with electoral laws and particularly rules, regulations, and directives which result in election irregularities. This approach may require greater clarity in drafting election rules and regulations, as well as more intense monitoring and warning systems developed by EMBs to ensure a high degree of accuracy in the preparation and polling processes. This concept proceeds on the basis that in general election stakeholders wish to see the genuine results of the democratic process without diversions to the court or similar assistance being brought into action.

Living on the Edge Susan Snyman, Kelly S. Bricker, 2021-05-06 Tourism has an essential role in terms of contributing to the financial sustainability of protected areas. In addition, through effective and efficient benefit sharing, tourism can positively impact numerous stakeholders within and beyond the protected area. *Living on the Edge: Benefit Sharing from Protected Area Tourism* highlights the complexity of benefit sharing, the importance of identifying all relevant stakeholders, the challenges of ensuring equity and sustainability, and the critical importance of good governance. The evolution of benefit sharing

mechanisms over time also emphasizes a continuing need to evolve and adapt to each unique situation as much evidence indicates that little has changed for those living on the edge Although this book focuses on benefit sharing from protected area tourism it is essential to acknowledge that along with these benefits are costs associated with tourism including possible increased local prices loss of access to land human wildlife conflict and other related costs The contributing authors agree that benefit sharing must include good governance accountability equity transparency a broad reach of stakeholder engagement and a robust combination of tangible and intangible benefits with recognition that benefit sharing systems need to be adaptive and evolve as needed according to the relevant situation The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism

Regional Spillovers in Sub-Saharan Africa Margaux MacDonald, Mr. Montfort Mlachila, Mustafa Yenice, Francisco Arizala, Mr. Matthieu Bellon, 2018-08-01 After close to two decades of strong economic activity overall growth in sub Saharan Africa decelerated markedly in 2015 16 as the largest economies experienced negative or flat growth Regional growth started recovering in 2017 but the question remains of how trends in the economies stuck in low gear will spill over to the countries that have maintained robust growth This note illuminates the discussion by identifying growth spillover channels The focus is on trade banking financial remittance investment fiscal and security channels which are the most prominent and most likely to transmit growth trends across borders In addition to bringing together findings from a broad array of existing research the note identifies countries that are the most likely sources of regional spillovers and those that are most likely to be impacted and provides estimates for the size of these channels It finds that intraregional trade and remittance flows are an important channel for growth spillovers while banking channels are less important but will remain a risk going forward Finally the note documents other important spillover channels through financial markets contagion revenue sharing arrangements in fiscal unions commodity pricing policies corporate investment and forced migration The main takeaway is that the level of interdependence among sub Saharan countries is higher than is generally assumed Consequently there is a need for additional emphasis on regional surveillance and spillover analysis along with traditional bilateral surveillance

Comparative Perspectives on School Textbooks Dobrochna Hildebrandt-Wypych, Alexander W. Wiseman, 2021-04-22 This book examines the discourses on nation building civic identity minorities and the formation of religious identities in

school textbooks worldwide It offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide Chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks

War and the Historic Environment Michael Dawson, 2024-07-19 This book explores how societies deal with the effects of war on the historic environment Written by historians archaeologists and conservation professionals it offers a dramatic perspective on the war in Ukraine It reveals the truth behind the Kremlin's just war narrative and touches on the complex relationship between war society and the historic environment with examples of heritage conservation archaeology and political expediency from Europe to Namibia Prompted by the Russian invasion of Ukraine in 2022 the first section Frontline Ukraine examines the manipulation of history the use of propaganda and the decolonisation of Russian memorials in former Soviet states It highlights how illegal archaeological excavations looting and the removal of museum collections beginning from seizure of Crimea in 2014 until the present day have contributed to an increasingly implausible Russian narrative which attempts to represent an imperial land grab as a just war In the second section Aspects of War the authors provide a wider perspective with chapters on the influence of film the effect of war on conservation forensic archaeology the reconstruction of damaged or destroyed museums as well as the relationship between America and the Hague Convention Topical and lucid this volume will be beneficial to students and researchers of history archaeology politics and international relations The chapters in this book were originally published in *The Historic Environment Policy Practice* and are accompanied by an updated introduction and a new conclusion

The Routledge Handbook of Disaster Risk Reduction Including Climate Change Adaptation Ilan Kelman, Jessica Mercer, JC Gaillard, 2017-09-19 The Routledge Handbook of Disaster Risk Reduction Including Climate Change Adaptation aims to provide an overview and critique of the current state of knowledge policy and practice encouraging engagement and reflection on bringing the two sectors together This long awaited and welcomed volume makes a compelling case that a common research agenda and a series of practical policies and policy recommendations can and should be put in place Over 40 contributions explore DRR including CCA in five parts The first part presents and interrogates much of the typical vocabulary seen in DRR including CCA not only pointing out the useful and not so useful dimensions but also providing alternatives and positive examples The second part explains how to move forward creating and supporting positive crossovers and connections while the third one explores some aspects of multi dimensional approaches to knowing and understanding The fourth part argues for a balanced approach to governance taking both governmental and non governmental governance as well as different scales of governance into

consideration The final part of the Handbook emphasises DRR including CCA as an investment rather than a cost and connects its further implementation with livelihoods of people around the world This handbook highlights the connections amongst the processes of dealing with disasters and dealing with climate change It demonstrates how little climate change brings which is new and emphasises the strengths of placing climate change within wider contexts in order to draw on all our strengths while overcoming limitations with specialities It will prove to be a valuable guide for graduate and advanced undergraduate students academics policy makers and practitioners with an interest in disaster risk reduction and climate change
