Introduction to Narrative Therapy

Narrative therapists utilize numerous methods to treat clients. The methods include scaffolding, outsider witnesses, and re-membering. Scaffolding entails helping clients to cope with their challenges by exploiting their past positive memories.

Re-membering involves assisting clients to resolve their problems by moving away from problems-filled memories. Outsider witness is a method that involves using third party's experience to assist a client to deal with his or her predicament. Narrative therapy is compatible with Christianity in numerous ways.

Like Christianity, narrative therapy uses externalization to give a client the liberty to select his or her treatment course. Nevertheless, narrative therapy does not acknowledge the concept of God. It holds that humans are capable of liberating themselves.

Narrative therapy will help John to revisit his experiences and relate them to his present condition. Through narrative therapy, it is believed that John will be in a position to understand his situation and institute an appropriate treatment course.
