Chanlat,2017-05-02 International Perspectives on Equality Diversity and Inclusion examines the complex nature of equality diversity and inclusion in the world of work through interdisciplinary comparative and critical perspectives L'état des citoyennetés en Europe et dans les Amériques Jane Jenson,Eric Remacle,Bérengère Marques Pereira,2007 La 4e de couverture indique Dans nos sociétés contemporaines sans cesse bouleversées par les restructurations économiques et les recompositions sociales les institutions politiques doivent faire face à la difficulté d'assurer l'inclusion sociale et la participation à la vie collective des citoyens En Europe comme dans les Amériques nous assistons des mutations importantes dans les régimes de citoyenneté et des changements de formes de citoyenneté Cet ouvrage examine en détail ces transformations partir de perspectives multiples qui non seulement croisent les optiques européennes et canadiennes mais mobilisent plusieurs disciplines que ce soit la science politique la sociologie le droit ou la philosophie *Small Nations, High Ambitions* X. Hubert Rioux,2020-02-24 Given the importance that entrepreneurship and start up businesses in technology intensive sectors like life sciences renewable energy artificial intelligence financial technologies software and others have come to assume in economic development the access of entrepreneurs to appropriate levels of finance has become a major focus of policymakers in recent decades Yet this prominence has led to a variety of policy models across countries and even within countries as different levels of government have adapted to new challenges by refining or transforming pre-existing institutions and crafting new policy tools Small Nations High Ambitions investigates the roots of such policy diversity at the subnational level offering in depth accounts of the evolution of Quebec's and Scotland's policy strategies in the entrepreneurial finance sector and venture capital more specifically As compared to other regions and provinces in the United Kingdom and Canada Quebec and Scottish venture capital ecosystems rely on a high degree of state intervention either direct through public investment funds or indirect through government backed hybrid or tax advantaged funds These two regions can thus be described as sponsor states heavily involved in the strategic backing of innovative businesses Whereas most of the literature on venture capital has focused on economic variables to explain variations in policy models this book seeks to explain policy divergence in Quebec and Scotland through political and ideological lenses Its main argument is that the development of venture capital ecosystems in these regions was underpinned by Quebecois and Scottish nationalisms which induced preferences for policy asymmetry and state intervention **Combating Poverty** Axel van den Berg,Charles Plante,Hicham Raïq,Christine Proulx,Samuel Faustmann,2017-01-01 Combating Poverty critically analyses the growing divergence between Quebec and other large Canadian provinces in terms of social and labour market policies and their outcomes over the past several decades While Canada is routinely classified as a single homogeneous liberal market regime social and labour market policy falls within provincial jurisdiction resulting in a considerable divergence in policy mixes and outcomes between provinces This volume offers a detailed survey of social and labour market policies since the early 2000s in Canada's four largest provinces Ontario Quebec British Columbia and Alberta showing the full extent to which

Canada's major provinces have chosen diverging policy paths Quebec has succeeded in emulating European and even Nordic social democratic levels of poverty for some groups while poverty rates and patterns in the other provinces remain close to the high levels characteristic of the North American liberal market oriented regime Combating Poverty provides a unique and timely reflection on the political implications and sustainability of Canada's fragmented welfare state **Being Fat** Jenny Ellison,2020-04-02 It is okay to be fat This is the basic premise of fat activism a social movement that has existed in Canada since the 1970s Being Fat focuses on the earliest strands of the movement covering the last decades of the twentieth century The book explores how fat activists wrestled with feminist issues of the era including femininity sexuality and health Showcasing the earliest efforts of fat activists in Canada such as the growth of social initiatives for fat women only Being Fat helps us recognize the long reach of second wave feminism and how it shaped activists approaches to everyday experiences like shopping exercise and going to the doctor **Etat colonial, noblesse et nationalisme à Java** Bertrand Romain,2005-04-01 La formation de l'Etat Java du XVIIe au XXe si cle est ins parable de celle de la noblesse de robe des priyayi L'exercice de l'autorité en est venu se dire et se vivre dans les termes propres la fa on priyayi de se penser et de penser le monde social La relation de domination s'est donc selon un langage mystique Celui ci pose l'existence d'un envers invisible du r el et donc d'une manière spécifique d'acquiescer et de mettre en œuvre par la pratique de l'ascèse un pouvoir sur soi et sur autrui Les scribes des palais ont laboré une vision de Java comme ordre social idéal comme domaine moral inaltérable Ils ont affirmé l'existence d'une fa on javanaise de bien faire les choses une tradition parfaite enserrant la vie sociale dans une litanie de règles de conduite porteuses d'un rapport particulier de soi soi C'est sur cette vision de Java que les premiers héros du nationalisme anticolonial en majorité issus du milieu priyayi ont pris appui pour doter la nation naissante d'une théorie antidémocratique de l'Etat Mais pour que le Java ternel des poètes de cour devienne la condition du discours nationaliste il fallait que le langage de la tradition parfaite cesse d'être une illusion collective et soit passible d'usages proprement instrumentaux Dans la seconde moitié du XIXe siècle l'Etat colonial néerlandais en Insulinde était devenu producteur et certificateur d'un savoir sur Java Concurrant l'imaginaire de la tradition parfaite ce dernier avait permis aux priyayi de développer un rapport flexible et stratégique leur propre trajectoire identitaire Cherchant à lutter contre cette représentation coloniale de Java mais aussi se la réapproprier les priyayi se sont alors assujettis leur règle morale sur un mode inédit Auparavant il n'était possible que d'être priyayi Il était maintenant possible de le paraître de jouer l'être A travers l'histoire de la constitution morale de la noblesse de robe des priyayi et bien au delà du seul cas javanais cette somme magistrale renouvelle la recherche sur la situation coloniale l'historicité de l'Etat la contingence du nationalisme et la subjectivité politique Le nationalisme constitutionnel au Canada David Sanschagrin,2024-08-07T00:00:00-04:00 Cet ouvrage fait la genèse du projet nationaliste constitutionnel pour mieux comprendre l'évolution du régime politique canadien de 1982 et les nouveaux rapports de domination subtils qu'il a instaurés tout en examinant le rôle joué par P Lien social et politiques ,2006 Les défis du

pluralisme à l'ère des sociétés complexes Félix Mathieu, 2017-09-27T00:00:00-04:00 Le présent ouvrage propose une analyse théorique empirique et normative des débats qui portent sur l'aménagement de la diversité ethnoculturelle et sociale dans les démocraties libérales contemporaines. L'auteur veut repenser les fondements du fédéralisme canadien de sorte que le Canada soit véritablement ouvert à la diversité issue de l'immigration mais aussi celle de la nation minoritaire qu'abaisse des nations autochtones sans oublier la minorité nationale anglophone du Québec et le groupe anglophone majoritaire au Canada. *The Road to Social Europe* Jean-Claude Barbier, 2013 In the wake of the Greek and Irish crises and at a moment when solidarity between states is hotly debated on a daily basis at EU level it is important to understand how solidarity can happen at all. The Road to Social Europe reviews the development of political cultural processes since the nineteenth century showing how social protection and social justice have gradually become interwoven with systems of social protection or welfare states. Grounded on extensive empirical research conducted in many EU countries and in the European Commission's administration over twenty years the book provides a cultural analysis of welfare systems in Europe. It also presents an original enquiry into the importance of languages for politics in Europe for the politics of welfare and for sociological research. It shows how sociological and ethnographic analysis can help in understanding the current and future challenges of European integration that rely unilaterally on functional economics. This in-depth sociological analysis of European diversity will appeal to a wide audience of students and scholars of sociology political science political economy and European studies.

*Les droits de l'homme dans le droit national en France et en Norvège* Robert Badinter, Louis Dubouis, 1989-12-31T23:00:00+01:00 Une comparaison des systèmes juridiques et constitutionnels norvégien et français en matière de protection des droits de l'homme. Copyright Electre. *Frontières et domination* Harsha Walia, 2023-09-07T00:00:00-04:00 Les médias sont saturés d'images déshumanisantes que le discours dominant associe à une prétendue crise migratoire. Or cette crise n'est que le résultat inévitable de la colonisation, la mondialisation capitaliste et des dérèglements climatiques. L'imputer à celles et ceux qui paient les frais de l'exploitation et de l'extractivisme est une façon d'exonérer les vrais responsables et permet de justifier le renforcement militaire des frontières, de diviser la classe ouvrière internationale, de criminaliser les migrants et de consolider la domination de la classe dirigeante. Ce livre dissèque la frontière comme méthode intrinsèque au processus de formation de l'État de hiérarchisation sociale de contrôle de la main-d'œuvre et de promotion de nationalismes xénophobes. En étudiant les cas de différents pays d'Amérique d'Europe d'Asie et d'Océanie, l'auteurnonce les politiques migratoires et appelle à l'action. S'appuyant sur le travail de politologues et de journalistes, elle donne aussi lire les témoignages de personnes migrantes pour offrir cette synthèse salutaire et nécessaire des combats menés partout dans le monde pour l'abolition des frontières. **Le Prophète de L' Eurasisme** Alexandre Douguine, 2006 Depuis environ une quinzaine d'années une nouvelle idéologie politique a surgi dans la Russie post-soviétique. Bien qu'encore peu connue en Occident, cette doctrine s'est fortement développée et enrichie au cours de la dernière décennie, se diffusant surtout parmi les

lites russes mais aussi celles de l'étranger proche principalement les républiques musulmanes anciennement soviétiques et même en Europe en Turquie en Iran etc Cette nouvelle idéologie qui est issue de l'immensité russe s'appelle le eurasisme et elle est inséparable de la figure de son fondateur le philosophe et géopoliticien russe Alexandre Douguine Le eurasisme relève la théorie de Mackinder qui oppose thalassocratie et tellurocratie le monde l'Amérique et terre mondiale L'Eurasie la hauteur d'une explication de l'histoire La civilisation thalassocratique anglo-saxonne protestante d'esprit capitaliste serait irrémédiablement opposée à la civilisation continentale russe eurasiennne orthodoxe et musulmane d'esprit socialiste L'Occident où le soleil se couche représente le déclin la dissolution L'Eurasie représente la renaissance c'est le pays des dieux puisque c'est là que le soleil se lève Le but déclaré du mouvement eurasiste est de constituer un grand bloc continental eurasienn pour lutter armés contre la puissance maritime atlantiste qui représente le mal mondial entraînant le monde vers le chaos Ainsi l'eschatologie se mêle à la géopolitique Dans le contexte strictement russe c'est une sorte de troisième voie située entre l'orientation pro-occidentale ultralibérale et la nostalgie du passé communiste tout en évitant les excès magiques du populisme extrême et du nationalisme étroit
