Processing and Management This book aims to bring together innovative results and new research trends in inf mation
processing computer science and management engineering If an information processing system is able to perform useful
actions for an obj tive in a given domain it is because the system knows something about that domain The more knowledge it
has the more useful it can be to its users Without that kno edge the system itself is useless In the information systems field
there is conceptual modeling for the activity that elicits and describes the general knowledge a particular information system
needs to know The main objective of conceptual modeling is to obtain that description which is called a conceptual schema
Conceptual schemas are written in languages called conceptual modeling languages Conceptual modeling is an important
part of requi ments engineering the first and most important phase in the development of an inf mation system **Popular
