*Rhetoric at the Boundaries* Bruce W. Longenecker, 2005 In *Rhetoric at the Boundaries* Bruce W Longenecker explores the way in which New Testament authors used an ancient rhetorical device to effect smooth transitions both large and small His study demonstrates how recognition of this rhetorical technique proves decisive for New Testament interpretation

Longenecker accomplishes this by examining the evidence for chain link interlocks in a variety of ancient sources including the Hebrew scriptures Jewish and Roman authors of the Graeco Roman world and the Graeco Roman rhetoricians He then applies the results of the survey to fifteen problematic passages of the New Testament In each case Longenecker establishes the presence of chain link interlock and highlights the structural literary and theological significance of the rhetorical device for New Testament interpretation     **The Routledge Companion to Folk Horror** Robert Edgar, Wayne

Imagine knowing what the brain craves from every tale it encounters, what fuels the success of any great story, and what keeps readers transfixed. *Wired for Story* reveals these cognitive secrets, and it's a game changer for anyone who has ever set pen to paper. The vast majority of writing advice focuses on writing well as if it were the same as telling a great story. This is exactly where many aspiring writers fail: they strive for beautiful metaphors, authentic dialogue, and interesting characters, losing sight of the one thing that every engaging story must do: ignite the brain's hardwired desire to learn what happens next. When writers tap into the evolutionary purpose of story and electrify our curiosity, it triggers a delicious dopamine rush that tells us to pay attention. Without it, even the most perfect prose won't hold anyone's interest. Backed by recent breakthroughs in neuroscience, as well as examples from novels, screenplays, and short stories, *Wired for Story* offers a revolutionary look at story as the brain experiences it. Each chapter zeroes in on an aspect of the brain, its corresponding revelation about story, and the way to apply it to your storytelling right now. **Sent** Justin King, 2011-04-04 It has been one millennium since humans in the Omni Way evolved to a new mastery of intelligence. Sadly, this came with a price: wars have increased because fear no longer exists as an option, and the galaxy is under the judgment of angels who blend in with the ranks. Join us in the fight for humans' perceived fight for survival, and likewise the purification of humans through the judgment of the angel remnant. And so begins the war to win. **Science and Art of Mining**, 1917 **NKJV, New Spirit-Filled Life Bible** Thomas Nelson, 2002-07-30 Find the Holy Spirit throughout the Bible.
