leadership civil service academia and sports This book has several main aims Its primary aim is historical It presents biographical profiles or accounts of the entrants and highlights the accomplishments and contributions of entrants in their respective fields of expertise or in the public sphere But the aim of this study is not only to preset entrants biographies It is mostly to place the entries in a broader historical perspective The biographical dictionary though concerned about personal accounts of entrants it discusses pivotal events that shaped the history of South Sudan The biographies are essentially linked to historical events that shaped or influenced the countrys trajectory throughout the period in question Central to understanding the history of South Sudan is the biographical information of personalities who have taken part in major events or who have assumed important offices in the country *Innovative Technologies for Enhancing Knowledge Access in Academic Libraries* Masenya, Tlou Maggie,2022-06-24 An increasing number of academic libraries worldwide are adopting innovative technologies in creating organizing storing managing disseminating preserving and enhancing access to their vital knowledge in order to adapt to the changing library environment and to stay relevant in the digital world This transition necessitates a need for best practices and reimagined strategies of implementing innovative technologies to ensure sustainable knowledge access and increase knowledge sharing Innovative Technologies for Enhancing Knowledge Access in Academic Libraries aims to provide best practices innovative strategies theoretical frameworks conceptual frameworks and empirical research findings regarding the application of emerging and innovative technologies in managing preserving and enhancing knowledge access in academic libraries worldwide Covering a range of topics such as artificial intelligence knowledge organization records management and library services this reference work is ideal for librarians researchers scholars practitioners academicians instructors and students **The Origin and Growth of Geography as a discipline at South Africa Universities** Gustav Visser,2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa s geography departments their staff members their times and the different Geographies they engaged in The book lays thefoundation from which more expansive individual departmental histories can be written in the future THE SECOND REPORT ON THE STATE OF THE WORLD's ANIMAL GENETIC RESOURCES FOR FOOD AND AGRICULTURE Food and Agriculture Organization of the United Nations,2018-06-06 Animal genetic resource diversity underpins the supply livestock products and services across a wide range of production environments It promotes resilience and serves as a basis for adapting livestock management to changing conditions It is vital to livelihoods of many of the world s poor people It can contribute to the delivery of ecosystem services such as landscape management and the maintenance of wildlife habitats However it is often undervalued underused and under threat This report updates the global assessment provided in the first report on The State of the World s Animal Genetic Resources for Food and Agriculture published in 2007 It focuses particularly on changes that have occurred during the period since the first report was published It serves as a

basis for a review and potential update of the Global Plan of Action for Animal Genetic Resources which since 2007 has provided an agreed international framework for the management of livestock biodiversity Drawing on 129 country reports it presents an analysis of the state of livestock diversity the influence of livestock sector trends on the management of animal genetic resources the state of capacity to manage animal genetic resources including legal and policy frameworks and the state of the art in tools and methods for characterization valuation use development and conservation **Culture, philosophies and reforms in public administration for the globalizing world** Edwin O.C. Ijeoma,Ogochukwu I. Nzewi,2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level issues in government e g leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens the book opens up a new vision for the future of public administration in the South African context and on the African continent not neglecting the current local regional and global environment Until recently globalisation was considered an entrenched world order but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than 20 years into democracy South Africa s income inequality remains one of the highest in the world This setting constitutes the context of the research outcome published in this scholarly work

Fostering Multidisciplinary Research for Sustainability Dr. Santosh Dhar,Dr. Upinder Dhar,Dr. Aditi Veda,2024-03-29 Modern research goes beyond disciplinary horizons for devising solutions to the society s most pressing unsolved issues Within the disciplinary framework the ability to solve problems through the generation of knowledge is no more addressed from discipline specific points of view only However it has become apparent that the research needed to address today s complex problems requires the expertise of many disciplines Multidisciplinary approach incorporates a combination of concepts and knowledge from various disciplines These contributions enable the exchange of knowledge and

experiences from diverse groups of people that can promote a holistic vision of a subject as well as new explanatory theories Being multidisciplinary does not mean giving up skills it means moving into new scientific directions using one s own special set of skills Rather than being an end in itself this kind of research is a way of achieving innovative goals enriched understanding and a synergy of new methods The book highlights the diverse perspectives of the researchers across disciplines from sustainable urban development to renewable energy strategies from biodiversity conservation to equitable machine learning internet of things deep learning and Artificial Intelligence AI models eco friendly methods individualized education plans and social policies that can contribute to more comprehensive and effective solutions to some of the world s most pressing issues while acknowledging that sustainability challenges are inherently interconnected hence the importance of inclusivity in research   *Impact of Immigration and Xenophobia on Development in Africa* Mafukata, Mavhungu Abel,2020-12-25 Human movement has an influence on the socio economic dynamics of people regions and countries The schisms between host and immigrants impact how host countries utilize immigrant skills and expertise to benefit their economies However immigrants are impacted by negative diplomatic relations between countries that limit the free movement of people and the welfare of immigrants In association this brings about social challenges such as Afrophobia racism xenophobia hatred and violence within these countries While these challenges are deeply rooted across the world Africa has its own unique challenges Still struggling with massive underdevelopment Africa needs to remove all the negative factors that could impede its quest of achieving development imperatives Impact of Immigration and Xenophobia on Development in Africa analyzes the genesis and evolution of immigration in Africa and how this has resulted in social challenges such as xenophobia within the continent The book focuses on demonstrating how immigrant skills and expertise can be positively utilized to assist African development and asserts the existence of xenophobia in respective countries does not assist Africa s quest of resolving its own challenges The chapters within this book therefore explore how this subsequent output of xenophobia has impacted African development and focuses on the revival of Pan Africanism as a uniting instrument and ideology for Africans This book is a valuable reference tool for activists retired and practicing politicians governments policymakers practitioners stakeholders researchers students and academicians   **Nietzsche's Dawn** Keith Ansell-Pearson,Rebecca Bamford,2020-12-14 The first focused study of Nietzsche s Dawn offering a close reading of the text by two of the leading scholars on the philosophy of Nietzsche Published in 1881 Dawn Thoughts on the Presumptions of Morality represents a significant moment in the development of Nietzsche s philosophy and his break with German philosophic thought Though groundbreaking in many ways Dawn remains the least studied of Nietzsche s work In Nietzsche s Dawn Philosophy Ethics and the Passion of Knowledge authors Keith Ansell Pearson and Rebecca Bamford present a thorough treatment of the second of Nietzsche s so called free spirit trilogy This unique book explores Nietzsche s philosophy at the time of Dawn s writing and discusses the modern relevance of themes such as fear superstition terror and moral and

religious fanaticism The authors highlight Dawn s links with key areas of philosophical inquiry such as the art of living well skepticism and naturalism The book begins by introducing Dawn and discussing how to read Nietzsche his literary and philosophical influences his relation to German philosophy and his efforts to advance his free spirit philosophy Subsequent discussions address a wide range of topics relevant to Dawn including presumptions of customary morality hatred of the self free minded thinking and embracing science and the passion of knowledge Providing a lively and imaginative engagement with Nietzsche s text this book Highlights the importance of an often neglected text from Nietzsche s middle writings Examines Nietzsche s campaign against customary morality Discusses Nietzsche s responsiveness to key Enlightenment ideas Offers insights on Nietzsche s philosophical practice and influences Contextualizes a long overlooked work by Nietzsche within the philosopher s life of writing Like no other book on the subject Nietzsche s Dawn Philosophy Ethics and the Passion of Knowledge is a must read for advanced undergraduate and graduate students instructors and scholars in philosophy as well as general readers with interest in Nietzsche particularly his middle writings
