General Manuel Isidoro Belzu:

A History of the Bolivian Labour Movement 1848-1971 Guillermo Lora, 2009-01-18 This book is an abridgement and translation of Guillermo Lora's five volume history. It deals with the strengthening and radicalisation of Bolivia's organised labour movement which culminated in the drastic revolutionary changes of the 1950s. The first half offers a reinterpretation of Bolivian history in the century preceding the revolution viewed from the perspective of the working class. The second half discusses in more detail the major political events and doctrinal issues of a period in which the author as secretary of the Trotskyist Partido Obrero Revolucionario himself frequently played an active part. Despite the radical upheaval that occurred in the fifties and the mobilisation of broad sectors of the population around such radical objectives as direct property seizures, union nominated ministers and union military and worker control, the labour movement was unable to maintain its conquests in the 1960s. The concluding chapters describe the period of renewed military repression and the continuing efforts of the labour movement to resist.

A Concise History of Bolivia Herbert S. Klein, 2011-01-31 In its first Spanish edition, Herbert Klein's *A Concise History of Bolivia* won immediate acceptance within Bolivia as the new standard history of this important nation. Surveying Bolivia's economic, social, cultural and political evolution from the arrival of early man in the Andes to the present, this current version brings the history of this society up to the present day, covering the fundamental changes that have occurred since the National Revolution of 1952 and the return of democracy in 1982. These changes have included the introduction of universal education and the rise of the mestizos and Indian populations to political power for the first time in national history. This second edition brings this story through the first administration of the first self proclaimed Indian president in national history and the major changes that the government of Evo Morales has introduced in Bolivian society, politics and economics.

Heroes, Villains, and Conflicts Peter Francis Kenny, 2016-02-25 Over many centuries the world has been gripped by warfare and from this chaos there have risen many heroes and villains This book takes a look at various individuals and their deeds including the year and place of birth wherever possible Their ranks range from the lowliest Private soldier to Field Marshals They have been decorated in some cases for their actions and the student of history will be stunned to discover just how they acted Some of these have included ancient leaders such as Emperors and their various campaigns covered most of Europe and also the Middle East Bolivia Marie Robinson Wright, 1907 **Exploration of the Valley of the Amazon** William Lewis Herndon, 1854 *The Legal Foundations of Inequality* Roberto Gargarella, 2010-04-12 This book explores the influence of opposing constitutional ideals during the founding period of constitutionalism in the Americas Examining a range of countries including the United States Argentina Colombia Chile Ecuador Mexico Peru and Venezuela Roberto Gargarella outlines these views and traces their influence to the present day **Historia de Bolivia** Alcides Arguedas, 1924 **The Triumph of Revolution** Ruben Ygua, 2025-05-04 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That's how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not

America James Dunkerley, 1992-02-17 Over recent years James Dunkerley has established a reputation as one of the most thoughtful and eloquent writers on Latin America In his latest book he investigates the high incidence of political suicide in the subcontinent A sensitive and revealing essay details a number of case studies the still disputed death of Chilean President Salvador Allende during Pinochet's storming of the Moneda Palace in 1973 the case of the Salvadorean guerrilla leader Salvador Cayetano Carpio who shot himself in the heart in April 1983 the death of Brazilian President Getulio Vargas who declared in April 1954 that he would only leave the presidential palace dead and a few days later did so Bolivian President German Busch who died at his own hand aged thirty five in 1939 and the dramatic end of Eduardo Chibas founder of the Cuban People's Party who shot himself live on Havana radio in 1951 in the pieces which follow Dunkerley employs his customary acuity to range over the implications of the Sandinista defeat in Nicaragua the plight of El Salvador the modern history of Bolivia the experience of postwar Guatemala and in a coruscating broadside the politics of the Peruvian novelist and the presidential candidate Mario Vargas Llosa THE INDEPENDENT AND DIVIDED AMERICAS Ruben
