web may 9 2020 this section presents a summary of electromagnetic field theory concepts presented in the previous volume electric charge and current charge is the ultimate source of the electric field and has si base units of coulomb c

electromagnetic field theory a problem solving approach zahn - Mar 11 2023

web oct 18 2022 this text is an introductory treatment on the junior level for a two semester electrical engineering course starting from the coulomb lorentz force law on a point charge the theory is extended by the continuous superposition of solutions from previously developed simpler problems leading to the general integral and differential field laws
