Aryeh,1997-12-23 **Design and Usability of Digital Libraries: Case Studies in the Asia Pacific** Theng, Yin-Leng,2004-12-31 This book showcases some of the best digital library practices from organizations in the Asia Pacific Particular emphasis has been placed on the design use and usability of digital libraries In addition to digital libraries it also examines related technologies the management of knowledge in digital libraries and the associated usability and social issues surrounding digital libraries The book will benefit practitioners researchers educators and policy makers from a variety of disciplines In particular developers designers of digital libraries librarians users and researchers will all find this collection of case studies a valuable tool *Readings in Educational Psychology* Edgar Stones,2012-05-04 The papers in this volume relate to the nature and conditions of classroom learning with particular emphasis on the cognitive aspects They are concerned with the question of concept formation and stress the importance of the teacher s function in ensuring that the child really has assimilated the ideas and not merely the words for the concepts The role of language is fundamental to this theme and the interaction of language thinking and learning is dealt with in the first section of the book This section also provides a context within which subsequent discussions of classroom learning problems can be viewed
