Geography Pseptember 2013 Memorandum:

American State-Building in Afghanistan and Its Regional Consequences Neamat Nojumi, 2016-03-03 The book calls for rethinking U S policy toward promoting Afghanistan as a regional economic hub in Southwest and Central Asia as it fits within the broader national security interest of the regional states It argues for defining Afghanistan within the U S national security interests in Southwest and Central Asia including Iran and offers critical strategic tools for Washington to support political openness and reforms that can balance China and Russia as well as more effectively manage Iran s regional behavior It links the U S policy approach in Southwest and Central Asia as the missing leg of Washington s East Asia policy The book defines the strategic interests of each of Afghanistan s neighboring states and key regional actors to explain why a rethinking of the U S role in Afghanistan can assist the emergence of a new regional order in Southwest and Central Asia which in turn can embolden a free market economy and a growing political openness superior to authoritarianism and Islamist militancy

sixtiers conducted reforms from 1985 to 1991 and invested major efforts in political liberalization but did not pay enough attention to economic reforms On the other hand the reformers from the generation of seventiers who were in charge of policy making from 1991 to 1998 were genuinely oriented toward market building but rather insensitive to the democratization of the political regime This book explores how these differences in ideational agendas produced inconsistent and controversial outcomes from both stages of reforms **The Coming of Neo-Feudalism** Joel Kotkin,2020-05-12

Migrant Justice in the Age of Removal Jacob P. Chamberlain, 2025-03-15 Migrant Justice in the Age of Removal details the story of Migrant Justice a migrant rights organization led by undocumented workers in a complicated and perhaps unexpected location Vermont United States This compelling story which includes U S Immigration and Customs Enforcement's use of a covert informant to infiltrate the group and deport key members of its community provides a detailed analysis of the state of immigration enforcement in the country today alongside an intimate portrait of successful modes of resistance against it Migrant Justice has gone on to improve rights for migrants in Vermont and across the country in these incredibly precarious times for migrant activists This book places Migrant Justice's activism within what is defined as the Age of Removal or the last three decades in which immigration enforcement in the United States has increasingly used enhanced enforcement mechanisms like the order of removal which aids in the confinement control and exploitation of migrants Migrant Justice's work also fits within a growing landscape of migrant rights movements that have arisen during this time and Jacob P Chamberlain provides a crucial snapshot of its work to better understand its successful forms of organizing in these contexts In this confluence of opposing forces we see egregious abuses against migrant actors

but we also see new and progressively powerful forms of resistance that are posing a specific challenge to bordered and territorially based limitations on rights and democracy Migrant Justice's work expands rights access to people regardless of citizenship which essentially works toward a deterritorialization of rights access or the opening of sociopolitical belonging to new actors
