**Exclusion and Inclusion in International Migration: Power, Resistance and Identity** Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The

securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations Suspension of Human Rights CHAPTER 4 Borders Exception and Sovereignty Australia s Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System Developing a Conceptual Perspective by Rebecca Mavin CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands Wellbeing and Health by Anna de Haan Yodit Jacob Trudy Mooren and Winta Ghebreab PART C Migrants Strategies and Identities CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou CHAPTER 9 Urban Resistances and Migrant Activism Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas CHAPTER 10 RefConnect A Mobile Social Network for Refugees by Evdokia Kogia Styliani Liberopoulou Nikolaos Alamanos Vasilis Pierros and Christos Michalakelis CHAPTER 11 Halo Halo Nostalgia and Navigating Life for Overseas Filipino Workers OFW s in the Kingdom of Saudi Arabia by Simeon S Magliveras      Deepening Neoliberalism, Austerity, and Crisis Julien Mercille,Enda Murphy,2015-07-07 From bank bailouts to austerity Europe s and Ireland s response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland s crisis resolution

Placing the Border in Everyday Life Asst Prof Corey Johnson,Assoc Prof Reece Jones,2014-05-28 Placing the Border in Everyday Life complicates the connection between borders and sovereign states by identifying the individuals and organizations that engage in border work at a range of scales and places This edited volume includes contributions from major international scholars in the field of border studies and allied disciplines who analyze where and why border work is done By combining a new theorization of border work beyond the state with rich empirical case studies this book makes a

ground breaking contribution to the study of borders and the state in the era of globalization Ukraine Over the Edge Gordon M. Hahn, 2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine s divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev s Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovych and Russia s seizure of Crimea and involvement in the civil war in the eastern region of Donbass *Post-Soviet Power* Susanne A. Wengle, 2015-02-05 Post Soviet Power tells the story of the Russian electricity system and examines the politics of its transformation from a ministry to a market Susanne A Wengle shifts our focus away from what has been at the center of post Soviet political economy corruption and the lack of structural reforms to draw attention to political struggles to establish a state with the ability to govern the economy She highlights the importance of hands on economic planning by authorities post Soviet developmentalism and details the market mechanisms that have been created This book argues that these observations urge us to think of economies and political authority as mutually constitutive in Russia and beyond Whereas political science often thinks of market arrangements resulting from political institutions Russia s marketization demonstrates that political status is also produced by the market arrangements that actors create Taking this reflexivity seriously suggests a view of economies and markets as constructed and contingent entities **Lessons From The Arctic** Emily Tsui, Thomas S Axworthy, Sara French, 2020-08-06 Lessons from the Arctic The Role of Regional Government in International Affairs is a collection of articles written by twenty six leading and emerging scholars from across the circumpolar region Each author assesses and explores the processes of regional governance in the Arctic from an interdisciplinary perspective The topics include Indigenous internationalism paradiplomacy federalism global institution building and more *Histories of Technology, the Environment and Modern Britain* Jon Agar, Jacob Ward, 2018-04-09 Histories of Technology the Environment and Modern Britain brings together historians with a wide range of interests to take a uniquely wide lens view of how technology and the environment have been intimately and irreversibly entangled in Britain over the last 300 years It combines for the first time two perspectives with much to say about Britain since the industrial revolution the history of technology and environmental history Technologies are modified environments just as nature is to varying extents engineered Furthermore technologies and our living and non living environment are both predominant material forms of organisation and self organisation that surround and make us Both have changed over time in intersecting ways Technologies discussed in the collection include bulldozers submarine cables automobiles flood barriers medical devices museum displays and biotechnologies Environments investigated include bogs cities farms places of natural

beauty and pollution land and sea The book explores this diversity but also offers an integrated framework for understanding these intersections

**Climax at Gallipoli** Rhys Crawley, 2014-03-19 Gallipoli the mere name summons the story of this well known campaign of the First World War And the story of Gallipoli where in August 1915 the Allied forces made their last valiant effort against the Turks is one of infamous might have beens If only the Allies had held out a little longer pushed a little harder had better luck Gallipoli might have been the decisive triumph that knocked the Ottoman Empire out of the First World War But the story is just that author Rhys Crawley tells us a story Not only was the outcome at Gallipoli not close but the operation was flawed from the start and an inevitable failure A painstaking effort to set the historical record straight Climax at Gallipoli examines the performance of the Allies Mediterranean Expeditionary Force from the beginning of the Gallipoli Campaign to the bitter end Crawley reminds us that in 1915 the second year of the war the Allies were still trying to adapt to a new form of warfare with static defense replacing the maneuver and offensive strategies of earlier British doctrine In the attempt both the MEF at Gallipoli and the British Expeditionary Force on the Western Front aimed for too much and both failed To explain why Crawley focuses on the operational level of war in the campaign scrutinizing planning command mobility fire support interservice cooperation and logistics His work draws on unprecedented research into the files of military organizations across the United Kingdom and Australia The result is a view of the Gallipoli Campaign unique in its detail and scope as well as in its conclusions a book that looks past myth and distortion to the facts and the truth of what happened at this critical juncture in twentieth century history
