The Road to Unfreedom Timothy Snyder, 2019-04-09 NEW YORK TIMES BESTSELLER From the author of *On Tyranny* comes a stunning new chronicle of the rise of authoritarianism from Russia to Europe and America A brilliant analysis of our time Karl Ove Knausgaard *The New Yorker* With the end of the Cold War the victory of liberal democracy seemed final Observers declared the end of history confident in a peaceful globalized future This faith was misplaced Authoritarianism returned to Russia as Vladimir Putin found fascist ideas that could be used to justify rule by the wealthy In the 2010s it has spread from east to west aided by Russian warfare in Ukraine and cyberwar in Europe and the United States Russia found allies among nationalists oligarchs and radicals everywhere and its drive to dissolve Western institutions states and values found resonance within the West itself The rise of populism the British vote against the EU and the election of Donald Trump were all Russian goals but their achievement reveals the vulnerability of Western societies In this forceful and unsparing work of contemporary history based on vast research as well as personal reporting Snyder goes beyond the headlines to expose the true nature of the threat to democracy and law To understand the challenge is to see and perhaps renew the fundamental political virtues offered by tradition and demanded by the future By revealing the stark choices before us between equality or oligarchy individuality or totality truth and falsehood Snyder restores our understanding of the basis of our way of life offering a way forward in a time of terrible uncertainty

Vladimir Putin and Russia's Imperial Revival David E. McNabb, 2016-02-12 Discerning the early stages of the rebirth of a new Russian empire from the ashes of the Soviet Union Vladimir Putin and Russia s Imperial Revival argues that Russia s recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War At the least Russia s actions represent the potential for renewal This book explains these developments in a historical context The book begins by describing Russia s initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression It identifies today s Russia as a nation determined to re establish itself as a political and military force As a prominent figure in the development and continuation of its current foreign policy Vladimir Putin plays a central role in the topics covered Previous literature often treats Putin as an individual phenomenon examining his connections to corruption or the secret police but here David E McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia These tactics include the use of energy as a weapon

cyber terrorism and military support for ethnic Russian separatists in other sovereign nations most recently exemplified by Russia's annexation of Crimea from Ukraine via armed invasion In an attempt to demystify Russia's re emergence as an international political force Vladimir Putin and Russia's Imperial Revival grounds its analyses in history It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events Conservation Agriculture in Subsistence Farming Catherine Chan, Jean
