

What is a dynamic assessment?

The goal is not to compare test scores but instead to explore a child's learning process.

It's not a specific test — it's an approach to assessment that helps uncover how individual students learn best.

It can be an alternative or supplement to standardized testing required by schools.

It doesn't just measure what kids can do on their own but also shows how much they can grow with support and where that support is needed.

It allows for a more adaptable way of assessing learning and tailoring strategies based on what works for each student.

It's helpful for students with more complex learning profiles and students who do not respond to the format of standardized assessments.
