His Story In The Skies:

Sky Stories Roger Ptak, 1998 Most of the constellations the patterns of stars found in the night sky are connected with the ancient myths which people developed to give meaning to what they saw in the sky based on the experience of their culture The ideas of modern astronomy play a similar role for us today They are stories which help us understand the phenomena we discover when we look deeper into the sky than is possible with eyes alone In this book the ancient sky stories and those of modern astronomy are woven together in a unique way Coverage includes twenty four important constellations as well as the sun and the moon and the sky as a whole For each of these one of the old stories is tied together with the astronomical understanding of a key feature in that part of the sky allowing one story to serve as a reminder for the other [Keep Your Head to the Sky](#) Grey Gundaker, 1998 The concept of African American home ground knits together diverse aspects of the

American landscape from elite suburbs and tower apartments to the old homes of the countryside to the tabletop array of family photos beside the bed of a housebound elder This fascinating volume focuses on ways African Americans have invested actual and symbolic landscapes with significance gained the means to acquire property and brought new insight to the interpretation of contemporary historical and archaeological sites *Keep Your Head to the Sky* demonstrates how visions of home past and present have helped to shape African Americans sense of place often under extremely hostile conditions
