replaced by many smaller ones And he asks what part the United States still has to play Sometimes he takes an eagle s eye view considering the present attempt to unite Europe against the background of a thousand years of such efforts But often he swoops to seize one telling human story that of a wiry old farmer in Croatia a newspaper editor in Warsaw or a bitter beautiful survivor from Sarajevo His eye is sharp and ironic but always compassionate History of the Present continues the work that Garton Ash began with his trilogy of books about Central Europe in the 1980s combining the crafts of journalism and history In his Introduction he argues that we should not wait until the archives are opened before starting to write the history of our own times Then he shows how it can be done
