History Gr11 Paper 1 2014:

Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991. Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin. This study combines research into these texts and inquiry into those who write, publish, approve or criticize them. Bringing together these perspectives provides a more complex view of school textbooks as final products of both top-down and bottom-up processes. This volume is aimed at postgraduate researchers and academics specializing in Soviet history, contemporary Russian politics and society and history education and textbooks. Private Secondary Schools 2014-2015 Peterson's, 2014-01-09 Peterson's Private Secondary Schools 2014-15 is a valuable resource to help parents and students evaluate and choose from more than 1,100 schools in the United States, Canada and throughout the world. Featured institutions include independent day schools, special needs schools and boarding schools including junior boarding schools for middle school students. Profiles offer detailed information on areas of specialization, location, setting, affiliation, accreditation, tuition and aid availability, student body, faculty, academic programs, athletics, computers and campus technology and admission information. Dozens of in-depth descriptions and displays offer photos of students and school campuses as well as essential information to help parents find the right private secondary school for their child. Extra Summer Programs section offers additional details on fascinating summer opportunities at private secondary schools.

Burnt by Democracy Jacqueline Kennelly, 2023-11-30 *Burnt by Democracy* traces the political ascendance of neoliberalism and its effects on youth. The book explores democracy and citizenship as described in interviews with over forty young people, ages 16 to 30, who have either experienced homelessness or identify as an activist living in five liberal democracies: Canada, Australia, New Zealand, the United States and the United Kingdom. Highlighting significant cuts to social and affordable housing, astronomical increases in the costs of higher education and the transformation and erosion of state benefits systems, Jacqueline Kennelly argues that democracy's decline is not occurring because young people are apathetic or focused on informal politics or unaware of their civic duties. Rather, it is because of collective misunderstanding about how democracy is actually structured, how individuals learn to participate and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions. Against a vivid and often heart-breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever-expanding state retrenchment and inequality, *Burnt by Democracy* makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all. *Multicultural Curriculum Transformation in Social Studies and Civic Education* Kenneth J. Fasching-Varner, Kerri J. Tobin, Norma A. Marrun, Iesha Jackson, Christine

Clark,2021-07-12 This book focuses on multicultural curriculum transformation in social studies and civic education subject areas The discussion of each area outlines critical considerations for multicultural curriculum transformation for the area by grade level and then by eight organizing tools including content standards relationships with and among students and their families and evaluation of student learning and teaching effectiveness The volume is designed to speak with PK 12 teachers as colleagues in the multicultural curriculum transformation work Readers are exposed to things to think about but also given curricular examples to work with or from in going about the actual concrete work of curriculum change This work supports PK 12 teachers to independently multiculturally adapt existing curriculum to create new multicultural curriculum differentiated by content areas and grade levels and by providing ample examples of what such multicultural transformed social studies and civic education curricula looks like in practice

Social Studies Education in South and South East Asian Contexts Kerry J Kennedy,2021-07-22 The education of young people is context bound This edited volume explores the contexts that characterise South and South East Asia and their influence on social studies education There is not a single context across this broad geographical expanse rather different religions different political systems and different values exert influences that create distinctive programmes that characterise different countries Yet there are also commonalities such as the post colonial nature of most of the countries portrayed in this book determined efforts at establishing new national communities and multiple value systems that lead to distinctive local priorities There are also voices of resistance in these chapters recognising the realities of local contexts but also recognising the need for change Social studies education in these contexts may well be descended from its origins in North America but in South and South Asian contexts it has taken on new purposes new forms and new values Education researchers policymakers and postgraduate students in comparative education will find the volume useful in its exploration and comparison of the social studies curricular and reforms that shaped them
