The present research has some limitations. First, the sample size was relatively small, and the results may not be generalizable to other populations. Second, the study was cross-sectional, and the results may be influenced by the timing of the data collection. Third, the study did not control for potential confounding factors, such as age, gender, and education level. Finally, the study did not measure the long-term effects of the intervention, and the results may change over time.
