CURRICULUM REFORM IN PAKISTAN Amna Afreen, 2022-02-25. I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system. The book examines the questions: Why and how has a small elite class come to rule Pakistan? And how has their rule worsened the country's problems? The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society. The book represents the fusion of my experiences in Pakistan with extensive literature analysis, interviews, and textbook analysis. This research began when I came to the United States in January 2015 through the SAR program. I wanted to know the answers to profoundly unsettling questions: How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing? I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed. Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky-high inflation. The influential religious leaders mostly belong to the elite class while their followers are mostly lower class. Ruling families and social classes mostly control appointed positions. Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam? Why don't they work to end the disparity of quality education between classes in Pakistan? Instead, many elites run their own lucrative elite Islamic schools. More importantly, why do the ulama, which literally means those who possess knowledge, particularly of Islam, maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions? Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities? *Book Review: Pakistan Educational Reforms* is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions, intolerance, and conflicts. Dr. Amna Afreen documents the political, socio-economic, and religious causes, limited government funding, widespread poverty and illiteracy, and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools, madrasa, and offers a series of potential solutions and reforms.

John L. Esposito, University Professor and Founding Director of The Alwaleed Center for Muslim-Christian Understanding, Georgetown University. **The Education Invasion** Joy Pullmann, 2017-03-14. Most Americans had no idea what Common

Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies
