Meaning And Textuality:

Meaning and Textuality François Rastier, Frank Collins, Paul Perron, 1997 Rastier proposes a theoretical framework for the semantic description and typology of texts establishing a critical debate among various streams of research before arriving at a synthesis of literary semiotics, thematic and linguistic semantics

Meaning and Reading Michel Meyer, 1983-01-01 According to the traditional view, meaning presents itself under the form of some kind of identity. To give the meaning of a sentence amounts to being capable of producing some substitute based on the identity of the terms of the sentence. Is then the meaning of a book or of any text the capacity of rewriting it? Instead of retaining a double standard theory of meaning, one for sentences and another for texts that would allow for an ad hoc gap, the author provides a unified conception called the question view of language he has developed, known as problematology. He pursues a systematic analysis of questioning in literature and shows how questioning makes the understanding process possible

The Event of

Meaning in Gadamer's Hermeneutics Carlo DaVia, Greg Lynch, 2024-02-06 This book presents the first detailed treatment of Gadamer's account of the nature of meaning. It argues both that this account is philosophically valuable in its own right and that understanding it sheds new light on his wider hermeneutical project. Whereas philosophers have typically thought of meanings as belonging to a special class of objects, the central claim of Gadamer's view is that meanings are events. Instead of a pre-existing content that we must unearth through our interpretive efforts, for Gadamer the meaning of a text is what happens when we encounter it in the appropriate way. In events of meaning, the world makes itself intelligibly present to us in a manner that is uniquely and irreducibly bound up with the concrete situation in which we find ourselves. When we recognize that Gadamer thinks of meaning in this way, we are better positioned to appreciate what his wider views amount to and how they hang together. Gadamer's accounts of interpretive normativity, the aspectual character of understanding and the nature of essences, for example, snap into more vivid relief when we see them as outgrowths of his underlying conception of meanings as events. *The Event of Meaning in Gadamer's Hermeneutics* will especially appeal to researchers and advanced students working in hermeneutics, phenomenology and the philosophy of language. More broadly, it will be of interest to humanities teachers and researchers concerned with the question of how texts from distant cultures can be relevant to readers here and now.

The Dictionary of Human Geography Derek Gregory, Ron Johnston, Geraldine Pratt, Michael

Watts, Sarah Whatmore, 2011-09-23 THE DICTIONARY OF HUMAN GEOGRAPHY Even better than before, the Dictionary is an essential tool for all human geographers and over the years has provided an invaluable guide to the changing boundaries and content of the discipline. No one can afford to be without this fifth edition. Linda McDowell, University of Oxford. From explanations of core concepts and central debates to lucid discussions of the theories driving contemporary research, this is the best conceptual map to the creative and critical thinking that characterises contemporary human geography. The fifth edition belongs on the bookshelf of all serious students. Gerard Toal, Virginia Tech. With an exceptional balance between

breadth and depth this is undoubtedly a timely and ground breaking revision of the Dictionary An outstanding accomplishment of the editors and contributors and a comprehensive and essential reference for any student or scholar interested in human geography Mei Po Kwan Ohio State University I can't imagine life without it Definitive detailed yet accessible there's still no single volume reference work in the field to rival it Noel Castree University of Manchester The Dictionary of Human Geography represents the definitive guide to issues and ideas methods and theories in human geography Now in its fifth edition this ground breaking text has been comprehensively revised to reflect the changing nature and practice of human geography and its rapidly developing connections with other fields The major entries not only describe the development of concepts contributions and debates in human geography but also advance them Shorter definitional entries allow quick reference and coverage of the wider subject area Changes to the fifth edition include entries from many new contributors at the forefront of developments in the field and over 300 key terms appearing for the first time It features a new consolidated bibliography along with a detailed index and systematic cross referencing of headwords The Dictionary of Human Geography continues to be the one guidebook no student instructor or researcher in the field can afford to be without

Translation as Text Albrecht Neubert, Gregory M. Shreve, 1992 The basic tenet here is that we do not translate words but texts and that these competing models can be integrated into a more global theory of translation by viewing the translation process as a primarily textual process The authors examine in detail the

characteristics that make a good translation a text focusing particularly on the empirical relationship between the theory of translation and its practice

Is There a Meaning in This Text? Kevin J. Vanhoozer, 2009-08-30 Is there a meaning in the Bible or is meaning rather a matter of who is reading or of how one reads Does Christian doctrine have anything to contribute to debates about interpretation literary theory and post modernity These are questions of crucial importance for contemporary biblical studies and theology alike Kevin Vanhoozer contends that the postmodern crisis in hermeneutics incredulity towards meaning a deep set skepticism concerning the possibility of correct interpretation is fundamentally a crisis in theology provoked by an inadequate view of God and by the announcement of God's death Part 1 examines the ways in which deconstruction and radical reader response criticism undo the traditional concepts of author text and reading Dr Vanhoozer engages critically with the work of Derrida Rorty and Fish among others and demonstrates the detrimental influence of the postmodern suspicion of hermeneutics on biblical studies In Part 2 Dr Vanhoozer defends the concept of the author and the possibility of literary knowledge by drawing on the resources of Christian doctrine and by viewing meaning in terms of communicative action He argues that there is a meaning in the text that it can be known with relative adequacy and that readers have a responsibility to do so by cultivating interpretive virtues Successive chapters build on Trinitarian theology and speech act philosophy in order to treat the metaphysics methodology and morals of interpretation From a Christian perspective meaning and interpretation are ultimately grounded in God's own communicative action in creation in the canon and preeminently in Christ Prominent features in Part 2 include a new account of the author's intention and of the literal sense the reclaiming of the distinction between meaning and significance in terms of Word and Spirit and the image of the reader as a disciple martyr whose vocation is to witness to something other than oneself *Is There a Meaning in This Text* guides the student toward greater confidence in the authority clarity and relevance of Scripture and a well reasoned expectation to understand accurately the message of the Bible *Is There a Meaning in This Text* is a comprehensive and creative analysis of current debates over biblical hermeneutics that draws on interdisciplinary resources all coordinated by Christian theology It makes a significant contribution to biblical interpretation that will be of interest to readers in a number of fields The intention of the book is to revitalize and enlarge the concept of author oriented interpretation and to restore confidence that readers of the Bible can reach understanding The result is a major challenge to the central assumptions of postmodern biblical scholarship and a constructive alternative proposal an Augustinian hermeneutic that reinvigorates the notion of biblical authority and finds a new exegetical practice that recognizes the importance of both the reader's situation and the literal sense

Textualities Hugh J. Silverman, 2013-10-28 *Textualities* is both an account of recent developments in Continental philosophy and a demonstration of philosophy as a distinctive theoretical practice of its own It can be read as a presentation and evaluation of major figures from Heidegger and Merleau Ponty to Foucault and Derrida with detailed accounts of Nietzsche Sartre Levi Strauss Barthes Blanchot and Kristeva

Post-Structuralism: A Note on the Philosophical School

Pons Malleus, 2025-07-02 This book is an invitation into one of the most challenging provocative and enduring philosophical movements of the late 20th century post structuralism Emerging in the wake of structuralism's systematic approach to language culture and society post structuralism did not so much reject its predecessor as it questioned its foundational certainties It reoriented philosophical inquiry toward ambiguity contingency and the instability of meaning challenging our deepest assumptions about truth identity power and knowledge Post structuralism is not a unified doctrine or a clearly bounded school of thought Rather it is a constellation of thinkers Michel Foucault Jacques Derrida Gilles Deleuze Julia Kristeva Jean Baudrillard and others each charting a unique intellectual path What binds them however loosely is a shared skepticism toward totalizing narratives fixed categories and objective truths Where structuralism sought underlying systems whether linguistic anthropological or psychoanalytic post structuralism problematized those systems demonstrating how they are shaped by historical contingencies power dynamics and the play of language itself This book does not aim to simplify post structuralism into a set of clear rules or principles nor does it attempt to resolve its many internal tensions Instead it offers a guide through its core concepts difference deconstruction discourse power subjectivity and more while contextualizing them within the broader intellectual and historical landscape From Derrida's unsettling of the metaphysics of presence to Foucault's genealogies of knowledge and power from Deleuze's philosophy of becoming to Kristeva's theories of the abject post structuralism offers a relentless interrogation of the categories that structure thought and society Crucially this book seeks to clarify not codify The writing of many post structuralists is notoriously difficult sometimes maddeningly so This complexity is not a mere stylistic flourish it often reflects the very nature of the questions being asked questions that resist closure and demand a new kind of philosophical literacy Yet with patient reading and careful attention the rewards of engaging with post structuralist thought are profound It offers tools for examining the assumptions beneath our language institutions and identities revealing how what appears natural or self evident is often historically constructed and ideologically motivated This book is for students encountering post structuralism for the first time for scholars seeking a synthetic overview and for readers from other disciplines literature sociology political theory cultural studies who find themselves drawn to its critical promise It is written with the conviction that philosophy is not an abstract self contained enterprise but a living practice that helps us understand and perhaps reshape the world we inhabit In an age increasingly dominated by rigid ideologies identity essentialisms and algorithmic certainties the post structuralist impulse to question foundations to embrace complexity and to remain open to the other feels more urgent than ever Whether one ultimately agrees with its premises or not engaging seriously with post structuralism can sharpen critical awareness and deepen our understanding of the conditions that shape contemporary thought and life

Music As Episteme, Text, Sign, and Tool Zachar Laskewicz, 2003 The primary intention of this work is to present a set of alternative approaches to musicality where the object of analysis is the process of music making rather than the product or end result It uses as its source the concept of musicality as a way of comprehending reality rather than as a static reflection of it and Balinese music is the main cultural example

What makes a text a text? Ulrike Gabert, 2020-09-14 Essay from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1 3 AKAD University of Applied Sciences Stuttgart language English abstract In this essay the question of what makes a text a text will be discussed The seven key criteria of textuality defined by Beaugrande and Dressler will be explained using an example of a classic American drama The question at what point a text is a text or whether a text can be called a text at all is one of the core questions of linguistics and goes all the way back to the ancient Greek language theory of Plato and Aristotle which dealt with this topic at the most basic level In the 1960s the expression text became a focus of linguists with the development several definitions of what a text is Since then numerous definitions have been formed and there is no consensus about which one is the best but one can find many similarities among them The 1981 work of the Austrian linguists Robert Alain de Beaugrande and Wolfgang U Dressler has been used as the basis for many discussions and definitions of text ever since Their work is often seen as a good framework for agreement which is based on seven criteria of textuality
