

MECHANICS OF **MATERIALS**

EIGHTH EDITION

JAMES M. GERE BARRY J. GOODNO

The book cover features a dynamic, low-angle perspective of a modern architectural structure. The structure is composed of large, angular, orange-brown concrete or metal beams that create a complex, geometric framework. Through the openings of this framework, a green, grid-like structure, possibly a glass or steel mesh, is visible, reflecting light and creating a sense of depth. The overall color palette is dominated by warm oranges and yellows, with contrasting greens and blues in the background. The design is sleek and modern, emphasizing structural engineering and materials science.
