Crichton, 2014-12 The Science of Michael Crichton Kevin R. Grazier, 2008-02-09 Wherever the cutting edge of science goes Michael Crichton is there From dinosaur cloning to global warming nanotechnology to time travel animal behavior to human genetics Crichton always takes us to the cutting edge of science and then pushes the envelope The Science of Michael Crichton examines the amazing inventions of Crichton's books and lifts up the hood revealing the science underneath In intelligent and well thought essays scholars and experts decide what Crichton gets right and what he gets wrong They examine which Crichton imaginings are feasible and which are just plain impossible Scenarios examined include whether dinosaurs can be cloned if nanotechnological particles can evolve intelligence and if we can go back in time *A Dictionary of Medieval Heroes* Willem Pieter Gerritsen, A. G. van Melle, 1998 The different cultures from which the middle ages drew its inspiration are represented Cu Cuchulainn from the Celtic world Apollonius of Tyre from Greek romance Attila the Hun and Theodoric the Ostrogoth from the struggle of the Roman empire against the Barbarians Each entry gives an outline of the story how it spread through Europe its modern retelling and appearances in art and a selective bibliography Jacket

Gothic Peregrinations Agnieszka Lowczanin, Katarzyna Malecka, 2018-07-06 For over two hundred years the Gothic has remained fixed in the European and American imaginations steadily securing its position as a global cultural mode in recent decades The globalization of Gothic studies has resulted in the proliferation of new critical concepts and a growing academic interest in the genre Yet despite its longevity unprecedented expansion and accusations of prescriptiveness the Gothic remains elusive and without a straightforward definition Gothic Peregrinations The Unexplored and Re explored Territories looks at Gothic productions largely marginalized in the studies of the genre including the European absorption of and response to the Gothic This collection of essays identifies landmarks and ley lines in the insufficiently probed territories of Gothic scholarship and sets out to explore its unmapped regions This volume not only examines Gothic peregrinations from a geographical perspective but also investigates how the genre has been at odds with strict demarcation of generic boundaries Analyzing texts which come from outside the Gothic canon yet prove to be deeply indebted to it like bereavement memoirs stories produced by and about factory girls of Massachusetts and the Mattel Monster High franchise this volume illuminates the previously unexplored fields in Gothic studies The chapters in this volume reveal the truly transnational expansion of the Gothic and the importance of exchange exchange now seen not only as crucial to the genre's gestation or vital to the processes of globalization but also to legitimizing Gothic studies in the global world Beowulf Jodi-Anne George, 2009-12-09 Of unknown authorship Beowulf is an Old English epic poem which incites contentious debate and has

Ridsen, 2013-10-01 Why did the most read work in English literature go without cinematic adaptation for so long And why did five major film treatments appear between 1999 and 2008 This book explores the growing number of films based on the Old English epic poem Beowulf and furthers the ongoing consideration of filmic medievalism Will the powerful influence of cinema affect the future reception of this great cultural linguistic and inherently visual work The films inevitably sway away from not only the story but also from the themes and concerns of the original to those more interesting

to the filmmakers or responsive to the zeitgeist They measure the pulse of our inherited notions of heroism and teach us more about our own times than about the epic from which they derive

Beowulf in Comic Books and Graphic Novels Richard Scott Nokes, 2023-03-10 The legendary story of Beowulf comes to us in only one medieval manuscript with no illustrations Modern comic book and graphic novel artists have created visual interpretations of Beowulf for decades both illustrating and altering the classic story to pull out new themes This book examines the growing canon of Beowulf comic books and graphic novels since the 1940s and shows the remarkable emergence of new traditions from re envisioning the medieval look to creating new plotlines and even to transforming his identity While placing Beowulf in a fantastical medieval setting a techno dystopia of the future or modern day America artists have appropriated the tale to comment on social issues such as war environmental issues masculinity and consumerism Whether Beowulf is fighting new monsters or allying with popular comic book superheroes these artists are creating a new canon of illustration that redefines Beowulf s place in our culture
