in all its complexity      **Marketing Management, 3rd Edition** Kumar Arun & Meenakshi N., In today's socially networked and highly competitive world it is imperative that marketers are always truthful because customers eventually find out if they have been misled. This can lead to their angst with the company going viral thereby destroying the company's reputation. Marketing Management advocates marketing based on absolute truth. Also, brand image is sensitive to market sentiments. Brands can be in danger; one wrong product or one shoddy campaign can destroy a brand built over years. Companies must align everything that they do with the core spirit of their brands. Further, when everything seems to go digital, it is important that marketers keep in mind that customers are primarily interested in their products/services. The book advocates that superior products and services will always be central to marketing. Key Features: Best Practices Researched, implemented and result-driven practices taken from leading companies across diverse industries throughout the world. Marketers can adopt these practices to elevate individual and organizational performance. Corporate Insights: Examples of marketing concepts being implemented by well-known Indian companies and brands. Latest moves of companies and brands as they cope with competition and environment. Case Studies: A brief case study after each chapter focusing on specific issues dealt within the chapter. Specialized Questions: Questions meant to make students ponder upon various aspects of marketing and challenge the existing paradigms.      **Proceedings of the Future Technologies Conference (FTC) 2018** Kohei Arai, Rahul

Bhatia, Supriya Kapoor, 2018-10-17 The book presenting the proceedings of the 2018 Future Technologies Conference (FTC) 2018 is a remarkable collection of chapters covering a wide range of topics including but not limited to computing, electronics, artificial intelligence, robotics, security and communications and their real-world applications. The conference attracted a total of 503 submissions from pioneering researchers, scientists, industrial engineers and students from all over the world. After a double-blind peer review process, 173 submissions including 6 poster papers have been selected to be included in these proceedings. FTC 2018 successfully brought together technology geniuses in one venue to not only present breakthrough research in future technologies but to also promote practicality and applications and an intra and inter-field exchange of ideas. In the future, computing technologies will play a very important role in the convergence of computing, communication and all other computational sciences and applications. And as a result, it will also influence the future of science, engineering, industry, business, law, politics, culture and medicine. Providing state-of-the-art intelligent methods and techniques for solving real-world problems as well as a vision of the future research, this book is a valuable resource for all those interested in this area.      Proceedings of the International Colloquium on Sports Science, Exercise, Engineering and Technology 2014 (ICoSSEET 2014) Rahmat Adnan, Shariman Ismail, Norasrudin Sulaiman, 2014-07-28 The proceeding is a collection of research papers presented at the International Colloquium on Sports Science, Exercise, Engineering and Technology (ICoSSEET 2014), a conference dedicated to address the challenges in the areas of sports science, exercise, sports engineering and technology, including other areas of sports, thereby presenting a consolidated view to the interested researchers in the
