Labor Economics in an Islamic Framework Toseef Azid, Umar Burki, Muhammad Junaid Khawaja, Nasim Shah Shirazi, Muhammad Tahir, 2021-12-30 The labor market in Islam is governed by the Islamic laws of fairness justice and reward that is equivalent to the job done Most of the literature in the field discusses the normative aspect of the labor market whereas few attempts can be seen to address more positive aspects There is a need for new theoretical and empirical models for the Islamic labor market which should differ from established approaches This book provides a comprehensive overview of the nature scope and dimensions of the labor market in an Islamic context from both theoretical and practical perspectives It presents and discusses labor economics and then compares the similarities and differences between conventional and Islamic views of the labor market explaining where they meet and critically justifying why they differ under the umbrella of Shari ah The book raises pertinent issues which it analyzes from both standpoints and widens the discourse to include norms morality and related institutions such as social security and welfare A unique feature of the book is that it examines labor economics practices among a specific group of countries and studies the labor conditions within these countries where the majority of the population follow the teachings of Islam in their daily lives The book proposes practical strategies for the development of new models for the Islamic labor market which are compatible with the modern world The book will enable academics and practitioners of Islamic economics to make economic sense of Shari ah compliance and human resource development

Cooperative Microeconomics Hervé Moulin, 2014-07-14 Over the past fifty years game theory has had a major impact on the field of economics It was for work in game theory that the 1994 Nobel Prize in Economics was awarded Although non cooperative game theory is better known the theory of cooperative games has contributed a number of fundamental ideas to microeconomic analysis Cooperative Microeconomics is the definitive textbook on these contributions Designed to be used by undergraduate and graduate students the book provides a thorough introduction and overview of its subject Hervé Moulin distinguishes among three primary modes of cooperation cooperation by direct agreements cooperation by just equitable compromise and cooperation by decentralized behavior This tri modal methodology is applied successively to the exchange of private goods the fair division of unproduced commodities the cooperative production of private and public goods and cost sharing Moulin proposes an elementary and self contained exposition supplemented by over 125 exercises of the main cooperative concepts for microeconomic analysis including core stability deterministic solutions such as the Shapley value and several broad

principles of equity such as the No Envy and Stand Alone tests The book also covers the most important failures of the decentralized behavior the tragedy of the commons and the free rider problem in the provision of public goods Cooperative Microeconomics is the first book of its kind and it will be widely used in courses in microeconomics and game theory Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Economic Aspects of Genocides, Other Mass Atrocities, and Their Prevention Charles H. Anderton, Jurgén Brauer, 2016-05-09 Alongside other types of mass atrocities genocide has received extensive scholarly policy and practitioner attention Missing however is the contribution of economists to better understand and prevent such crimes This edited collection by 41 accomplished scholars examines economic aspects of genocides other mass atrocities and their prevention Chapters include numerous case studies e g California s Yana people Australia s Aborigines peoples Stalin s killing of Ukrainians Belarus the Holocaust Rwanda DR Congo Indonesia Pakistan Colombia Mexico s drug wars and the targeting of suspects during the Vietnam war probing literature reviews and completely novel work based on extraordinary country specific datasets Also included are chapters on the demographic gendered and economic class nature of genocide Replete with research and policy relevant findings new insights are derived from behavioral economics law and economics political economy macroeconomic modeling microeconomics development economics industrial organization identity economics and other fields Analytical approaches include constrained optimization theory game theory and sophisticated statistical work in data mining econometrics and forecasting A foremost finding of the book concerns atrocity architects purposeful strategic use of violence often manipulating nonrational proclivities among ordinary people to sway their participation in mass murder Relatively understudied in the literature the book also analyzes the options of victims before during and after mass violence Further the book shows how well intended prevention efforts can backfire and increase violence how wrong post genocide design can entrench vested interests to reinforce exclusion of vulnerable peoples and how businesses can become complicit in genocide In addition to the necessity of healthy opportunities in employment education and key sectors in prevention work the book shows why new genocide prevention laws and institutions must be based on reformulated incentives that consider insights from law and economics behavioral economics and collective action economics
