Dying to Eat Candi K. Cann, 2018-01-05 Food has played a major role in funerary and memorial practices since the dawn of the human race In the ancient Roman world for example it was common practice to build channels from the tops of graves into the crypts themselves and mourners would regularly pour offerings of food and drink into these conduits to nourish the dead while they waited for the afterlife Funeral cookies wrapped with printed prayers and poems meant to comfort mourners became popular in Victorian England while in China Japan and Korea it is customary to offer food not only to the bereaved but to the deceased with ritual dishes prepared and served to the dead Dying to Eat is the first interdisciplinary book to examine the role of food in death bereavement and the afterlife The contributors explore the phenomenon across cultures and religions investigating topics including tombstone rituals in Buddhism Catholicism and Shamanism the role of death in the Moroccan approach to food and the role of funeral casseroles and church cookbooks in the Southern United States This innovative collection not only offers food for thought regarding the theories and methods behind these practices but also provides recipes that allow the reader to connect to the argument through material experience Illuminating how cooking and corpses both transform and construct social rituals Dying to Eat serves as a fascinating exploration of the foodways of death and bereavement

Recipes for Respect Rafia Zafar, 2019-03-15 Food studies once trendy has settled into the public arena In the academy scholarship on food and literary culture constitutes a growing river within literary and cultural studies but writing on African American food and dining remains a tributary *Recipes for Respect* bridges this gap illuminating the role of foodways in African American culture as well as the contributions of Black cooks and chefs to what has been considered the mainstream Beginning in the early nineteenth century and continuing nearly to the present day African Americans have often been stereotyped as illiterate kitchen geniuses Rafia Zafar addresses this error highlighting the long history of accomplished African Americans within our culinary traditions as well as the literary and entrepreneurial strategies for civil rights and respectability woven into the written records of dining cooking and serving Whether revealed in cookbooks or fiction memoirs or hotel keeping manuals agricultural extension bulletins or library collections foodways knowledge sustained Black strategies for self reliance and dignity the preservation of historical memory and civil rights and social mobility If to follow Mary Douglas's dictum food is a field of action that is a venue for social intimacy exchange or aggression African American writing about foodways constitutes an underappreciated critique of the racialized social and intellectual spaces of the United States

Unspeakable Secrets and the Psychoanalysis of Culture Esther Rashkin, 2008-08-07 Winner of the 2009 Gradiva Award Theoretical Category presented by the National Association for the Advancement of Psychoanalysis Esther Rashkin argues that psychoanalysis galvanizes as no other discipline can an understanding of texts in their social historical and political contexts Demonstrating that close reading can be a radical political practice she exposes heretofore unseen ideologies concealed in works of film and literature from *Last Tango in Paris* to *The Picture of Dorian Gray* from Barthes's *Mythologies* and Balzac's *Sarrasine* to *Babette's Feast* Psychoanalytic concepts such as identification with the aggressor the cryptonymy illness of mourning and the phantom allow Rashkin to reveal how shameful and unspeakable secrets propel the narratives she examines In the process she convincingly makes the case for a new practice of psychoanalytic cultural studies a practice that fully engages with the politicized discourses anti-Semitism racism colonialism censorship that mark a text's location in history

Funeral Festivals in America Jacqueline S. Thursby, 2021-11-21 When Evelyn Waugh wrote *The Loved One* 1948 as a satire of the elaborate preparations and memorialization of the dead taking place in his time he had no way of knowing how technical and extraordinarily creative human funerary practices would become in the ensuing decades In *Funeral Festivals in America* author Jacqueline S Thursby explores how modern American funerals and their accompanying rituals have evolved into affairs that help the living with the healing process Thursby suggests that there is irony in the festivities surrounding death The typical American response to death often develops into a celebration that reestablishes links or strengthens ties between family members and friends The increasingly important funerary banquet for example honors an often well lived life in order to help survivors accept the change that death brings and to provide healing fellowship At such celebrations and other forms of the traditional wake participants often use humor to add another dimension to expressing both the personality of the deceased and their ties to a particular ethnic heritage In her research and interviews Thursby discovered the paramount importance of food as part of the funeral ritual During times of loss individuals want to be consoled and this is often accomplished through the preparation and consumption of nourishing comforting foods In the Intermountain West Funeral Potatoes a potato cheese casserole has become an expectation at funeral meals Muslim families often bring honey flavored fruits and vegetables to the funeral table for their consoling familiarity and many Mexican Americans continue the tradition of tamale making as a way to bring people together to talk to share memories and to simply enjoy being together *Funeral Festivals in America* examines rituals for loved ones separated by death frivolities surrounding death funeral foods and feasts post funeral rites and personalized memorials and grave markers Thursby concludes that though Americans come from many different cultural traditions they deal with death in a largely similar approach They emphasize unity and embrace rites that soothe the distress of death as a way to heal and move forward

[A Hole in the World](#) Amanda Held Opelt, 2022-07-19 In a raw and inspiring reflection on grief selected by

Publishers Weekly as one of the best books of the year a mourning sister processes her personal story of loss by exploring the history of bereavement customs When Amanda Held Opelt suffered a season of loss including three miscarriages and the unexpected death of her sister New York Times bestselling writer Rachel Held Evans she was confronted with sorrow she didn't know how to face Opelt struggled to process her grief and accept the reality of the pain in the world She also wrestled with some unexpectedly difficult questions What does it mean to truly grieve and to grieve well Why is it so hard to move on Why didn't my faith prepare me for this kind of pain And what am I supposed to do now Her search for answers led her to discover that generations past embraced rituals that served as vessels for pain and aided in the process of grieving and healing Today many of these traditions have been lost as religious practice declines cultures amalgamate death is sanitized and pain is averted In this raw and authentic memoir of bereavement Opelt explores the history of human grief practices and how previous generations have journeyed through periods of suffering She explores grief rituals and customs from various cultures including the Irish tradition of keening or wailing in grief which teaches her that healing can only begin when we dive headfirst into our grief the Victorian tradition of post mortem photographs and how we struggle to recall a loved one as they were the Jewish tradition of sitting shiva which reminds her to rest in the strength of her community even when God feels absent the tradition of mourning clothing which set the bereaved apart in society for a time allowing them space to honor their grief As Opelt explores each bereavement practice it gives her a framework for processing her own pain She shares how in spite of her doubt and anger God met her in the midst of sorrow and grieved along with her and shows that when we carefully and honestly attend to our losses we are able to expand our capacity for love faith and healing
