PACES for the MRCP Tim Hall, 2008 This title is written for MRCP candidates preparing for PACES exam in UK and rest of world Clinical examinations in the OSCE style of marked stations are daunting for all students whether undergraduates or MRCP candidates The recent introduction of the 5 station PACES Progressive Assessment of Clinical Examination Skills exam inspired a great deal of apprehension so the appearance of the first edition of Hall s PACES for MRCP was greatly welcomed by candidates and became an immediate success This new edition builds on the book s reputation It provides in one colourful and attractive volume complete coverage of all the most common medical cases that will be covered in PACES and similar exams A one volume text giving candidates complete preparation for the PACES exam within one portable volume 250 cases organised into the 5 stations of the PACES exam respiratory and abdominal system history taking cardiovascular and nervous system communication and ethics and skin locomotion eyes and endocrine systems Engaging question and answer approach at the end of each case excellent preparation for the exam Boxed tips highlight vital information helps identify what is most important to remember Produced in full colour throughout Colour coding for each station Many more illustrations added now over 300 clinical photographs and line drawings in colour Many more cases added bringing the number up to 250 50 per station History taking and communication skills stations now revised so that they exactly mimic the requirements of the exam

250 Cases in Clinical Medicine E-Book Ragavendra R. Baliga, 2012-01-27 A new fully updated edition of Baliga s very popular collection of short cases arranged by clinical area emphasising the key diagnostic features of clinical conditions as commonly presented in the short case part of the Final MB and MRCP examinations Also included are likely instructions or commands expected from the examiner for each condition and the key

points which the candidate must tell the examiner A must have for the final year undergraduate and trainee doctor From customer reviews of the previous edition This book is the most useful guide that money can buy for the final exams in the current MBChB undergraduate course It covers important areas of clinical medicine in a question based format and highlights classical scenarios The questions raised are classical of examiners in the long and short case examinations This is a must buy for any undergraduate medical student The book is a must during the period that the young doctor or student is on the wards It allows one to focus on the important physical findings and the relevant clinical pearls associated with the different medical conditions met It discusses important physical findings and their diagnostic importance I have found it useful in preparing for attending ward rounds and also for sharpening my clinical skills The discussion section is well organised such that undergraduates as well as postgraduates can benefit and the material is up to date with good references for further reading Excellent preparation for finals as well the MRCP MUST HAVE before MRCP PACES Features Ideal for use in the ward Each of the 250 cases presents a disease or topic which is covered consistently to address salient features history examination diagnosis questions covering investigations and differentiations advanced level questions management New to this edition Over 350 new images Enhanced advanced level questions Many more tables **PACES for the MRCP** Tim Hall, 2013-09-17 The 3rd edition of PACES for the MRCP has been fully revised and updated throughout to retain its pole position as the textbook to accompany core medical training CMT and prepare candidates for success in the Practical Assessment of Clinical Examination Skills and a future specialty career Features Fully revised for the new Station 5 and completely updated throughout Promotes understanding and deeper learning of modern medicine applicable to PACES and the specialist registrar Emphasis on clinical assessment history taking examination and communication skills equipping candidates with appropriate differential diagnoses from which to develop the right diagnosis Encourages candidates to question why a diagnosis has arisen and consider its consequences For example Heart failure is not a diagnosis until a candidate has considered the differential diagnoses of breathlessness and decided why heart failure is most likely and then considered its cause not always ischaemic heart disease its presentation acute chronic left or right ventricular or both and most importantly the effects of it and its treatments on a patient's life This 3rd edition of PACES for the MRCP continues to provide fully revised up to date evidence based coverage of investigations and treatments Whilst the emphasis of PACES is on clinical skills candidates who understand when for example a patient with rheumatoid arthritis might benefit from a biologic agent and how this will influence inflammatory disease is better equipped for success A one volume text giving candidates complete preparation for the PACES exam within one portable volume 250 cases organised into the 5 stations of the PACES exam respiratory and abdominal system history taking cardiovascular and nervous system communication and ethics and skin locomotion eyes and endocrine systems Engaging question and answer approach at the end of each case excellent preparation for the exam Boxed tips highlight vital information helps identify what is most important to remember

Fully revised for the new Station 5 and completely updated throughout
