600 Series IdentiFlex 610

Description

The IdentiFlex 610 (IDF610) is suited for small- to medium-sized installations of commercial, institutional, and industrial life-safety applications. The IDF610 offers all the features of today's most advanced life safety systems. The integration of analog and addressable handbells provide allows system engineers to customize panels and provide higher efficiency for a given application. The IDF610 can be networked with up to 256 other 600 Series panels using Gamewell-PC's SmartLink™ peer-to-peer network.

The IDF610 can monitor and control up to 504 analog addressable points. Analog outputs are located on the IDF610's front panel. The IDF610 also has a built-in backup battery for added security. The IDF610 also has a built-in backup battery for added security. The IDF610 also has a built-in backup battery for added security.

The IDF610 is designed to be between studs for convenient mounting. The compact design and key-actuated dead-break construction enables feature module replacement of the system. Access to system function keys is limited by a key switch. Multiple levels of password protection prevent unauthorized use. The control boards are mounted on a removable chassis, and are designed with pluggable terminal strips for ease of installation and service.

Operator's Display

The IDF610 operator's display provides all user access to the system. The display has all the necessary keys and annunciator points to maintain and monitor the system. Alarm, supervisory, and trouble conditions are indicated on the operator's display by dedicated LEDs and an internal speaker. The Acknowledge, Reset, and Signal Silence keys are located directly below the 4-line by 40-character backlit alphanumeric display. All system functions and operational logic can be programmed directly from the front panel.
