

10 STEPS TO CURE A WINE HANGOVER

If you're reading this, then you are/have experienced the dreaded 'wine flu'. I have many years of experience & therefore wanted to share my wisdom with you...

By TravellingCorkscrew.com.au

1 SLEEP AS LONG AS POSSIBLE

Sleep as long as you can, when you're sleeping you're not feeling the pain and you may even be able to sleep it off.

2 GET FLUIDS IN YA

Drink as much as you can (non-alcoholic beverages of course!), my favourite is a frozen coke or sprite. Icy cold and the sugar really helps. Of course water is the ultimate beverage to get stuck into when suffering a dreaded wine hangover, but sometimes you just don't feel in the mood for it, right?

3 POP A FEW PILLS

Painkillers, the sooner you can get some neurofen, panadol or disprin down ya, the better!

4 ENJOY SOME EGG PORN

Eat a couple of softboiled or poached eggs. Eggs have cysteine in them which helps break down the toxins in your body.

5 MISO ME BABY

Miso Soup! The soup contains lots of nutrients and vitamins which helps soothe the tummy. I swear by it!

6 GET YOUR BA-NAY-NAY ON

You lose potassium when you drink wine. So eating bananas which are full of potassium the next day helps replenish your potassium levels and the fructose helps process the alcohol quicker.

7 RE-HYDRATE WITH POWER

Powerade & sports drinks are full of sodium, calories and electrolytes which are exactly what you need after dehydrating your body with all that wine!

8 PLAIN JANE FOOD

Eat bland food like crackers, toast or plain 2-minute noodles, they'll help raise low blood sugar levels whilst not irritating the stomach like greasy fatty foods will.

9 STEAMY SHOWER TIME

A hot shower, this will help relax your body and may even help you sleep to succeed at step 1!

10 GO-CO-NUT TIME

Eat a fresh coconut or drink some coconut water. Coconuts are full of anti-oxidants which are exactly what a wine flu sufferer needs! And if you're still struggling, then perhaps 'hair of the dog' is more your style, so why not chuck some rum in that coconut water!

Get Knowledge Get Treated Creating An Awareness About Hangover:

Understanding and Treating Alcoholism Jill Littrell, 2014-01-02 There seems to be an abundance of factual information regarding alcoholism what causes it who is most susceptible how it affects its victims and how it should be treated However a definitive source of data supporting or refuting the numerous and diverse positions was never available Thus the goal of the author is to provide professionals with a solid understanding as to which factual statements about alcoholism are actually supported with evidence and some of the empirically validated ways to proceed with treatment Major methods of treatment are reviewed and empirically based approaches are compared and contrasted with one another Different and sometimes new focal points are explored such as the disease concept of alcoholism family members of alcoholics personality characteristics and effects of alcoholism exclusive to women Also notable is the nearly unprecedented look into the impact of alcohol on all types of mood and behavior rather than just on aggression a topic long since exhausted A comprehensive review of literature complemented with critiques of research this two volume set is a thorough informative source of reference for anyone who seeks to further their knowledge of this often misunderstood yet unfortunately all too common phenomenon **Expectation**

Hangover Christine Hassler, 2016-01-07 When our expectations are met and things go according to plan we feel a sense of accomplishment we feel safe in control and on track But when life does not live up to our expectations we end up with an Expectation Hangover This particular brand of disappointment is profoundly uncomfortable and can cost us valuable time and energy if not treated and leveraged effectively Christine Hassler has broken down the complex and overwhelming experience of recovering from disappointment into a step by step treatment plan This book reveals the formula for how to process Expectation Hangovers on the emotional mental physical and spiritual levels to immediately ease suffering Instead of wallowing in regret self recrimination or anger we can see these experiences as catalysts for profound transformation and doorways that open to possibility Often it is only when life throws us a curveball or several that we look in a different direction and make room for the kinds of unexpected things that lead more directly to a life we love By the time you finish this book you ll understand why your Expectation Hangover happened and have your own treatment plan a clear course of action to pursue your goals while preventing future disappointment **Get Knowledge Get Treated** Evangeline

The Silent Epidemic: A Child Psychiatrist's Journey beyond Death Row: Understanding, Treating, and Preventing Neurodevelopmental Disorder Associated with Prenatal Alcohol Exposure Susan D. Rich, MD, MPH, 2016-06-15 This book addresses a critical public health problem in America the leading preventable cause of birth defects neurodevelopmental disorders and intellectual disability prenatal alcohol exposure Dr Rich provides insight into the prevalence of neurodevelopmental disorder associated with prenatal alcohol exposure ND PAE among juveniles accused of violent crimes in neighborhoods where America s least valued citizens reside and even in upper middle class communities

The problem develops as early as the first three weeks of pregnancy when many women are unaware that they are pregnant. With appropriate diagnosis and treatment, affected individuals can avoid a lifetime of lost potential from substance use disorders, incarceration, unemployment, and homelessness. From her broad psychiatric, forensic, and public health experience, Dr. Rich has crafted a reasoned, passionate argument for communities and professionals to unite in ending an epidemic that currently affects one in twenty American children. Understanding Victims of Interpersonal Violence Veronique N.

Valliere, 2019-11-21 Understanding Victims of Interpersonal Violence: A Guide for Investigators and Prosecutors provides accessible information for criminal justice personnel in the trenches with victims of violence to aid in understanding and explaining their behavior. This guide sheds light on interpersonal violence victims' decisions and actions by providing context and naming factors that commonly impact victim responses. These include internal factors such as culture, religion, shame, and personality, as well as external factors like access to services, support systems, and resources. These factors inhibit or facilitate responses like disclosure, resistance, and participation, or lack thereof, in the prosecution of the offenders. This book also explores the influence of the perpetrator as well as more deeply examining victim responses that typically offer challenges to investigators and prosecutors, for example, continued contact with the offender, lack of resistance, and issues in disclosure. Finally, the guide provides concrete tools to assist investigators in interviewing and for prosecutors to use during the prosecutorial process. This book is designed for investigators, prosecutors, advocates, criminal justice practitioners, and students of these subjects. How to Understand Alcoholism and When to Seek Help Alex Diaz, 2023-12-17

Understanding alcoholism involves recognizing the complex relationship between an individual and alcohol, acknowledging when casual or moderate drinking transitions into a compulsive, unhealthy pattern. It is a multifaceted condition encompassing physical dependence, psychological factors, and behavioral patterns. Recognizing the signs and knowing when to seek help are critical steps in addressing this issue. Understanding Alcoholism: Alcoholism or alcohol use disorder (AUD) isn't solely about the quantity of alcohol consumed but also revolves around its impact on someone's life. It often involves Physical Dependence: The body adapts to alcohol, leading to tolerance (needing more to achieve the same effect) and withdrawal symptoms when not drinking. Psychological Aspects: Emotional reliance on alcohol to cope with stress, anxiety, or other issues. Behavioral Patterns: Continued drinking despite negative consequences, neglecting responsibilities, and difficulty controlling or stopping alcohol intake.
