Tobias Warner,2019-03-05 Winner 2021 African Literature Association First Book Award Should a writer work in a former colonial language or in a vernacular The language question was one of the great intractable problems that haunted postcolonial literatures in the twentieth century but it has since acquired a reputation as a dead end for narrow nationalism This book returns to the language question from a fresh perspective Instead of asking whether language matters *The Tongue Tied Imagination* explores how the language question itself came to matter Focusing on the case of Senegal Warner investigates the intersection of French and Wolof Drawing on extensive archival research and an under studied corpus of novels poetry and films in both languages as well as educational projects and popular periodicals the book traces the emergence of a politics of language from colonization through independence to the era of neoliberal development Warner reads the francophone works of well known authors such as L opold Senghor Ousmane Semb ne Mariama B and Boubacar Boris Diop alongside the more overlooked Wolof language works with which they are in dialogue Refusing to see the turn to vernacular languages only as a form of nativism *The Tongue Tied Imagination* argues that the language question opens up a fundamental struggle over the nature and limits of literature itself Warner reveals how language debates tend to pull in two directions first they weave vernacular traditions into the normative patterns of world literature but second they create space to imagine how literary culture might be configured otherwise Drawing on these insights Warner brilliantly rethinks the terms of world literature and charts a renewed practice of literary comparison Memory, Fear and Ghosts Russell Breighner, Ghost stories are in many cases the human memory of some traumatic experience For reasons not yet understood in cases of extreme fear the mind creates a record that survives outside the originator s experience A reason why scientists

have not studied these events is that they currently reside in the literature of the occult primarily as ghost stories tales of lost spirits trapped in some eternal vortex A review of this occult literature unearths much that has been misinterpreted Further investigation is needed to determine the full potential of this finding and its application to neurophysiology The Alchemy of Addiction Stephen J.
