Cultures of Comics Work Casey Brienza, Paddy Johnston, 2016-12-05 This anthology explores tensions between the individualistic artistic ideals and the collective industrial realities of contemporary cultural production with eighteen all new chapters presenting pioneering empirical research on the complexities and controversies of comics work Art Spiegelman Alan Moore Osamu Tezuka Neil Gaiman Names such as these have become synonymous with the medium of comics Meanwhile the large numbers of people without whose collective action no comic book would ever exist in the first place are routinely overlooked Cultures of Comics Work unveils this hidden global industrial labor of writers illustrators graphic designers letterers editors printers typesetters publicists publishers distributors translators retailers and countless others both directly and indirectly involved in the creative production of what is commonly thought of as the comic book Drawing upon diverse theoretical and methodological perspectives an international and interdisciplinary cohort of cutting edge researchers and practitioners intervenes in debates about cultural work and paves innovative directions for comics scholarship

A Successful Novel Must Be in Want of a Sequel M. Carmen Gomez-Galisteo, 2018-04-30 What happened after Mr Darcy married Elizabeth Bennet in *Pride and Prejudice* Where did Heathcliff go when he disappeared in *Wuthering Heights* What social ostracism would Hester Prynne of *The Scarlet Letter* have faced in 20th century America Great novels often leave behind great questions and sequels seek to answer them This critical analysis offers fresh insights into the sequels to seven literary classics including Jane Austen's *Sense and Sensibility* the Bronte sisters *Jane Eyre* Louisa May Alcott's *Little Women* and Daphne du Maurier's *Rebecca*

American Zoo David Grazian, 2015-09-01 A close up look at the contradictions and wonders of the modern zoo Orangutans swing from Kevlar lined fire hoses Giraffes feast on celebratory birthday cakes topped with carrots instead of candles Hi tech dinosaur robots growl among steel trees while owls watch animated cartoons on old television sets In *American Zoo* sociologist David Grazian takes us on a safari through the contemporary zoo alive with its many contradictions and strange wonders Trading in his tweed jacket for a zoo uniform and a pair of muddy work boots Grazian introduces us to zookeepers and animal rights activists parents and toddlers and the other human primates that make up the zoo's social world He shows that in a major shift away from their unfortunate pasts American zoos today emphasize naturalistic exhibits teeming with lush and immersive landscapes breeding programs for endangered animals and enrichment activities for their captive creatures In doing so zoos blur the imaginary boundaries we regularly use to separate culture from nature humans from animals and civilization from the wild At the same time zoos manage a wilderness of competing priorities animal care education scientific research and recreation all while attempting to serve as centers for conservation in the wake of the current environmental and climate change crisis The world of the zoo reflects how we project our own prejudices and desires onto the animal kingdom and invest nature with meaning and sentiment A revealing portrayal of comic animals delighted children and feisty zookeepers *American Zoo* is a remarkable

close up exploration of a classic cultural attraction **No Place Like Home** Brian J. McCabe,2016-03-18 In the decade following the housing crisis Americans remain enthusiastic about the prospect of owning a home Homeownership is a symbol of status attainment in the United States and for many Americans buying a home is the most important financial investment they will ever make We are deeply committed to an ideology of homeownership that presents homeownership as a tool for building stronger communities and crafting better citizens However in No Place Like Home Brian McCabe argues that such beliefs about the public benefits of homeownership are deeply mischaracterized As owning a home has emerged as the most important way to build wealth in the United States it has also reshaped the way citizens become involved in their communities Rather than engaging as public spirited stewards of civic life McCabe demonstrates that homeowners often engage in their communities as a way to protect their property values This involvement contributes to the politics of exclusion and prevents particular citizens from gaining access to high opportunity neighborhoods thereby reinforcing patterns of residential segregation A thorough analysis of the politics of homeownership No Place Like Home prompts readers to reconsider the power of homeownership to strengthen citizenship and build better communities Practical General Practice E-Book Adam Staten,Paul Staten,2019-06-10 Practical General Practice is a highly practical manual specifically designed for use during the consultation process Containing over 1000 conditions the unique underlying structure of the book allows the GP to see immediately what treatment is recommended and why All recommendations are highly specific giving a firm guide to the GP during the consultation process rather than a list of possibilities that the GP might wish to consider Bullet points for action which give the GP an immediate summary of the issues that must be covered in the consultation Bullet points of the key evidence which justifies those recommendations All chapters thoroughly revised to reflect changes in the evidence and in major guidelines since the last edition NNT values provided when available New editorial team New research and guidelines relating to evidence based medicine included Greater focus on international guidelines and opinion New introductory chapter Principles and Practice of Primary Care taking account of topics relevant to the MRCGP exam Appendices thoroughly revised and updated Many contributors new to this edition New chapters on Ethics Diabetes and Long term conditions Extensively revised combined chapter on palliative care and end of life issues Now with accompanying free e book on Expert Consult for the first time Now in full colour **Neurobiology of Respiration** Mieczyslaw Pokorski,2013-07-08 Respiration is an area of the medical study that undergoes fast developments A better understanding of the neural and cellular mechanisms underlying respiratory disorders and lung function is essential for the evidence based pharmacotherapy and for optimizing the patient care and prophylactic measures to improve the health and quality of life This comprehensive book is a blend of basic and clinical research The book is thought to promote the translation of science into clinical practice The book presents an update on the areas of current research and clinical interest in the neurobiology of the respiratory system Recent innovations in detection and management of respiratory diseases are

described The book will be a base of reference in the field of respiration for years to come and a source of future research ideas This book is a required text for respiratory scientists neuropathologists and for clinicians searching for bench to bedside treatments of lung diseases *Women's Colonial Gothic Writing, 1850-1930* Melissa Edmundson, 2018-05-19 This book explores women writers involvement with the Gothic The author sheds new light on women s experience a viewpoint that remains largely absent from male authored Colonial Gothic works The book investigates how women writers appropriated the Gothic genre and its emphasis on fear isolation troubled identity racial otherness and sexual deviancy in order to take these anxieties into the farthest realms of the British Empire The chapters show how Gothic themes told from a woman s perspective emerge in unique ways when set in the different colonial regions that comprise the scope of this book Canada the Caribbean Africa India Australia and New Zealand Edmundson argues that women s Colonial Gothic writing tends to be more critical of imperialism and thereby more subversive than that of their male counterparts This book will be of interest to students and academics interested in women s writing the Gothic and colonial studies **Planet Work** Ryan Hediger, 2022-12-09 Labor and labor norms orient much of contemporary life organizing our days and years and driving planetary environmental change Yet labor as a foundational set of values and practices has not been sufficiently interrogated in the context of the environmental humanities for its profound role in climate change and other crises This collection of essays demonstrates the urgent need to rethink models and customs of labor and leisure in the Anthropocene Recognizing the grave traumas and hazards plaguing planet Earth contributors expose fundamental flaws in ideas of work and search for ways to redirect cultures toward more sustainable modes of life These essays evaluate Anthropocene frames of interpretation dramatize problems and potentials in regimes of labor and explore leisure practices such as walking and storytelling as modes of recasting life while a coda advocates reviving notions of work as craft **Public Catastrophes, Private Losses** Sarah Tobias, Arlene Stein, 2025-01-14 From COVID to climate change induced wildfires and hurricanes we live in an era when catastrophes have become the new normal But even though these events affect us all some members of society are more vulnerable to harm than others This essay collection explores how the definition of catastrophe might be expanded to include many forms of large scale structural violence on communities species and ecosystems Using feminist methodologies the contributors to Public Catastrophes Private Losses trace the connections between seemingly unrelated forms of violence such as structural racism environmental degradation and public health crises In contrast to a news media that focuses on mass fatalities and immediate consequences these essays call our attention to how catastrophes can also involve slow violence with long term effects The authors also consider how these catastrophes are profoundly shaped by government action or inaction offering a powerful critique of how government neglect has cost lives and demonstrating how vulnerable populations can be better protected The essays in this collection examine how public catastrophes imprint themselves on lives as individuals and communities narrate process and grapple with legacies of loss The book is thus a feminist

intervention that challenges the binary between public and private personal and political Ethnographic Refusals, Unruly Latinidades Alex E. Chavéz, Gina M. Pérez, 2022-04-01 The contributors in *Ethnographic Refusals Unruly Latinidades* highlight the value of radical inclusion in their research and call for a critical self reflexivity that marshals the power of bearing witness to move from rhetoric to praxis in support of these methodologies within anthropological perspectives The essays in this collection do not offer simple solutions to histories of colonialism patriarchy and misogyny through which gender binaries and racial hierarches have been imposed and reproduced but rather provide a crucial opportunity for reflection on and continued reimagination of the contours of Latinidad These scholars deploy Latinx strategically as part of ongoing dialogues understanding that their terminologies are inherently imprecise contested and constantly shifting Each chapter explores how Latinx ethnographers and interlocutors work together in contexts of refusal ever mindful of how power shapes these encounters and the analyses that emerge from them as well as the extraordinary possibilities offered by ethnography and its role in ongoing social transformation

Rethinking the Romance Genre E. Davis, 2013-12-05 *Rethinking the Romance Genre* examines why the romance genre has proven such an irresistible form for contemporary writers and filmmakers as they approach global issues In contemporary texts ranging from literary works to films to social media romance facilitates a range of intimacies that offer new feminist models in the age of globalization
