Redmond, 2014 An extraordinary innovative and generative book George Lipsitz author of *How Racism Takes Place* *Politics and the American Television Comedy* Doyle Greene, 2015-01-28 This work examines the unique and ever changing relationship between politics and comedy through an analysis of several popular American television programs Focusing on close readings of the work of Ernie Kovacs Soupy Sales and Andy Kaufman as well as *Green Acres* and *The Gong Show* the author provides a unique glimpse at the often subversive nature of avant garde television comedy The crisis in American television during the political unrest of the late 1960s is also studied as represented by individual analyses of *The Monkees* *The Smothers Brothers Comedy Hour* *Rowan and Martin's Laugh In* and *All in the Family* The author also focuses on more contemporary American television drawing a comparative analysis between the referential postmodernism of *The Simpsons* and the confrontational absurdity of *South Park* **Chomsky's Challenge to American Power** Anthony F. David W. Music, Paul Akers Richardson, 2008 Baptists have a long and rich heritage of congregational song The hymns Baptists have sung and the books from which they have sung them have been shaping forces for Baptist theology worship and piety Baptist authors and composers have provided songs that have made an impact not only among Baptists in America but also across denominational and geographic lines Congregational singing continues to be a key component of Baptist worship in the twenty first century Beginning with an overview of the British background this book is a survey of the history of Baptist hymnody in America from Baptist beginnings in the New World to the present Its intent is to help the reader better understand the background against which current Baptist congregational song practices operate Unlike earlier writings on the subject this book provides both comprehensive coverage and a continuous narrative It gives thorough attention to the major Baptist bodies in America as well as calling attention to the contributions of significant smaller groups The British Baptist background is dealt with in an introductory section The book also includes many texts and tunes as illustrations of the topics being discussed and focuses on some of the contributions of Baptist authors and composers to the repertory of congregational song Book jacket Technological Innovation in Legacy Sectors William B. Bonvillian, Charles Weiss, 2015-08-18 The American economy faces two deep problems expanding innovation and raising the rate of quality job creation Both have roots in a neglected problem the resistance of Legacy economic sectors to innovation While the U S has focused its policies on breakthrough innovations to create new economic frontiers like information technology and biotechnology most of its economy is locked into Legacy sectors defended by technological economic political social paradigms that block competition from disruptive innovations that could challenge their models Americans like to build technology covered wagons and take them out west to open new innovation frontiers we don't head our wagons back east to bring innovation to our Legacy sectors By failing to do so the economy misses a major opportunity for innovation which is the bedrock of U S competitiveness and its standard of living Technological Innovation in Legacy Sectors uses a new unifying conceptual framework to identify the shared features underlying structural obstacles to innovation in major Legacy sectors energy air and auto transport the electric power grid buildings manufacturing agriculture health care delivery and higher education and develops approaches to understand and transform them It finds both strengths and obstacles to innovation in the national innovation environments a new concept that combines the innovation system and the broader innovation context for a group of Asian and European economies Manufacturing is a major Legacy sector that presents a particular challenge because it is a critical stage in the innovation process By increasingly offshoring production the U S is losing important parts of its innovation capacity Innovate here produce here where the U S took all the gains of its strong innovation system at every stage is being replaced by innovate here produce there which threatens to lead to produce there innovate there To bring innovation to Legacy sectors authors William Bonvillian and Charles Weiss recommend that policymakers focus on all stages of innovation from research through implementation They should fill institutional gaps in the innovation system and

take measures to address structural obstacles to needed disruptive innovations In the specific case of advanced manufacturing the production ecosystem can be recreated to reverse jobless innovation and add manufacturing led innovation to the U S s still strong research oriented innovation system Translating America Peter Conolly-Smith,2015-09-29 At the turn of the century New York City s Germans constituted a culturally and politically dynamic community with a population 600 000 strong Yet fifty years later traces of its culture had all but disappeared What happened The conventional interpretation has been that in the face of persecution and repression during World War I German immigrants quickly gave up their own culture and assimilated into American mainstream life But in *Translating America* Peter Conolly Smith offers a radically different analysis He argues that German immigrants became German Americans not out of fear but instead through their participation in the emerging forms of pop culture Drawing from German and English newspapers editorials comic strips silent movies and popular plays he reveals that German culture did not disappear overnight but instead merged with new forms of American popular culture before the outbreak of the war Vaudeville theaters D W Griffith movies John Philip Sousa tunes and even baseball games all contributed to German immigrants willing transformation into Americans *Translating America* tackles one of the thorniest questions in American history How do immigrants assimilate into and transform American culture **Keywords for Travel Writing Studies** Charles Forsdick,Zoë Kinsley,Kathryn Walchester,2019-04-22 *Keywords for Travel Writing Studies* draws on the notion of the keyword as initially elaborated by Raymond Williams in his seminal 1976 text *Keywords A Vocabulary of Culture and Society* to present 100 concepts central to the study of travel writing as a literary form Each entry in the volume is around 1 000 words the style more essayistic than encyclopaedic with contributors reflecting on their chosen keyword from a variety of disciplinary perspectives The emphasis on travelogues and other cultural representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension the aim is to give an overview of each term in its historical and theoretical complexity providing readers with a clear sense of how the selected words are essential to a critical understanding of travel writing Each entry is complemented by an annotated bibliography of five essential items suggesting further reading *Diamonds* Ian Smillie,2014-04-10 *Diamonds* are a multi billion dollar business involving some of the world s largest mining companies a million and a half artisanal diggers more than a million cutters and polishers and a huge retail jewellery sector But behind the sparkle of the diamond lies a murkier story in which rebel armies in Angola Sierra Leone and the Congo turned to diamonds to finance their wars Completely unregulated so called blood diamonds became the perfect tool for money laundering tax evasion drug running and weapons trafficking *Diamonds* brings together for the first time all aspects of the diamond industry In it Ian Smillie former UN Security Council investigator and leading figure in the blood diamonds campaign offers a comprehensive analysis of the history and structure of today s diamond trade the struggle for effective regulation and the challenges ahead There is he argues greater diversification and competition than ever before but

thanks to the success of the Kimberley Process this coveted and prestigious gem now represents a fragile but renewed opportunity for development in some of the world's poorest nations This part of the diamond story has rarely been told

American Paraliterature and Other Theories to Hijack Communication Blake Stricklin, 2021-03-30 American Paraliterature examines the generative encounters of post 1968 French theory with the postwar American avant garde The book begins with an account of the 1975 Schizo Culture conference that was organized by Semiotext e editor Sylv re Lotringer at Columbia University The conference was an attempt to directly connect the American avant garde with French theory At the event John Cage shared the stage with Deleuze and Foucault introduced William S Burroughs This schizo connection presents a way to read the experimental methods of the American avant garde Burroughs Cage and Kathy Acker and how their writing creates a counterprogram to the power that Foucault and Deleuze started to articulate in the 1970s

Siracusa, 2021-05-21 In the early 1960s thousands of Black activists used nonviolent direct action to challenge segregation at lunch counters movie theaters skating rinks public pools and churches across the United States battling for and winning social change Organizers against segregation had used litigation and protests for decades but not until the advent of nonviolence did they succeed in transforming ingrained patterns of white supremacy on a massive scale In this book Anthony C Siracusa unearths the deeper lineage of anti war pacifist activists and thinkers from the early twentieth century who developed nonviolence into a revolutionary force for Black liberation Telling the story of how this powerful political philosophy came to occupy a central place in the Black freedom movement by 1960 Siracusa challenges the idea that nonviolent freedom practices faded with the rise of the Black Power movement He asserts nonviolence's staying power insisting that the indwelling commitment to struggle for freedom collectively in a spirit of nonviolence became for many a lifelong commitment In the end what was revolutionary about the nonviolent method was its ability to assert the basic humanity of Black Americans to undermine racism's dehumanization and to insist on the right to be **Gender and the**

Race for Space Erinn McComb, 2025-06-10 The American astronaut image was informed by early Cold War ideals of masculinity that helped mold a distinctly American anti communist masculinity which appeared on the surface anyway to resolve not only an American crisis of masculinity but helped win the Cold War on an ideological and popular level This American image focused on strict gender binaries of man as the protector controlling technology and containing communism while woman was the passive actor with spaceflight technology left behind in the home waiting for the return of the astronaut husband Allowing women to fly into space would have represented a lack of individual control with spaceflight
