A pedigree chart is used to study the passing of a trait through a number of generations. People who raise show animals, such as dogs and cats, often use these charts for their animals so the inheritance of desired traits from generation to generation can be traced. Pedigree charts also are used to study the inheritance of certain diseases or disorders in humans, such as sickle-cell anemia.

Procedure:

A. Study the key shown for symbols used on a pedigree chart.

B. Use the pedigree chart shown for sickle-cell anemia (autosomal recessive disease) to answer the following questions (**3 Points Each**).

The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
