

## GENERATOR SAFETY

### SAFETY LABEL LOCATIONS

These labels warn you of potential hazards that can cause serious injury. Read them carefully.

If a label comes off or becomes hard to read, contact your Honda generator dealer for a replacement.

| <b>⚠ DANGER</b>                                                                                                                                                                                                                                                                                                                      |                                                                   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|
| Using a generator indoors CAN KILL YOU IN MINUTES. Generator exhaust contains carbon monoxide. This is a poison you cannot see or smell.                                                                                                                                                                                             |                                                                   |
| <br><b>NEVER</b> use inside a home or garage, EVEN if doors and windows are open.                                                                                                                                                                                                                                                    | <br>Only use OUTSIDE and far away from windows, doors, and vents. |
| <b>⚠ WARNING</b>                                                                                                                                                                                                                                                                                                                     |                                                                   |
| <br><b>Gasoline is highly flammable and explosive. You could be burned or seriously injured if the gasoline is spilled.</b><br>• Before refueling, stop the engine and keep heat, sparks, and flame away.<br>• Refuel only with outdoors.<br>• Do not fill the fuel tank above the upper fill line.<br>• Wipe up spills immediately. |                                                                   |
| <br><b>Exhaust contains poisonous carbon monoxide gas that can build up to dangerous levels in closed areas. Breathing carbon monoxide can cause unconsciousness or death.</b><br>• Never run the generator in a closed, or even partly closed area where people may be present.                                                     |                                                                   |
| <br><b>Improper connections to a building can allow electrical current to backfeed into utility lines, creating an electrocution hazard.</b><br>• Connections to a building must follow generator power from utility power and comply with all applicable laws and electrical codes.                                                 |                                                                   |
| <br><b>The generator is a potential source of electrical shock if not kept dry.</b><br>• Do not expose the generator to moisture, rain or snow.<br>• Do not operate the generator with wet hands.                                                                                                                                    |                                                                   |
