Clymer,2009-07-01 A faithful reproduction of the 1970 Floyd Clymer publication of the official Honda Factory Workshop
Manual specific to the n00 50cc Super Cub series of motorcycles This manual includes all of the data that you would expect
from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components It also
includes a comprehensive trouble shooting section plus tables of technical data tolerances and fits making it an invaluable
resource for collectors and restorers of these classic Honda motorcycles There are 136 illustrations and each procedure is
explained in a step by step method using an appropriate illustration The translation from Japanese to English is at times a
little quirky but the illustrations make up for any difficulty in understanding what needs to be done There are separate
sections that deal with the repair and overhaul procedures for the engine transmission wheels and brakes front forks frame
and carburetor plus a detailed electrical service section This is a must have reference for any Honda enthusiast and would
certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these
classic motorcycles Out of print and unavailable for many years this book is highly sought after on the secondary market and
we are pleased to be able to offer this reproduction as a service to all Honda enthusiasts worldwide Honda Super Cub
