Here are the recipes:

Homemade Horsey Electrolytes

Ingredients:

- 1 (16-oz) can table salt
- 2 (11-oz) cans Morton's Lite salt (Or other low sodium salt that contains potassium chloride)
- 2 tablespoons Epsom salt (make sure you get a non-scented, plain variety)

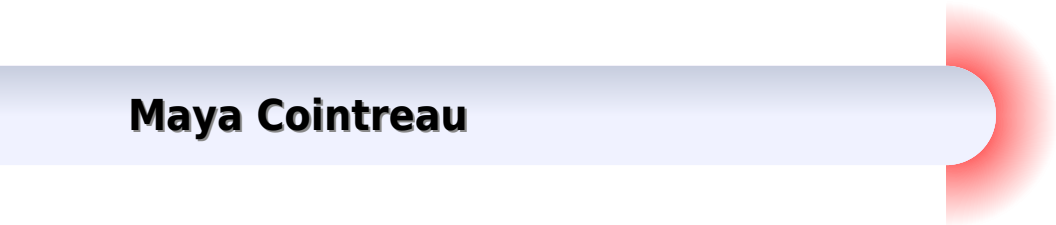

Mix together and feed a single one-ounce scoop, once a day.

***Optional:** If your horse needs a flavor enticement, try adding a dry packet or two of Jello to the mix. I've found the strawberry flavor a particular hit.*

Remember, always consult your veterinarian before feeding your horse something new or beginning a supplement plan, and introduce new feedstuffs gradually.
