university library were the main repositories of knowledge today's students can use the Internet indeed the libraries of the
entire planet to instantly locate the information they need often effortlessly from the comfort of a couch What the students
want is not mere information they need and demand practical knowledge and how information is applied To be a successful
teacher one must constantly experiment with new and more effective learning strategies that combine best practices in
learning In this book the authors have assembled numerous strategies and techniques for academic success We have emptied
our bags of tricks onto these pages We have witnessed how these strategies rejuvenate our students university experience By
authoring this book we pass on to you our student the intricacies of the art of learning From the role of motivation to memory
