searched for a better and more effective way to explain in their own words and according to their own perspective the remarkable ways in which children engage with music In the field of educational psychology there are a number of publications that survey the issues surrounding child and adolescent development Some of the more innovative present research and theories and their educational implications in a style that stresses the fundamental interplay among the biological environmental social and cultural influences at each stage of a child s development Until now no similar overview has existed for child and adolescent development in the field of music The Child as Musician addresses this imbalance and is essential for those in the fields of child development music education and music cognition
