### **Take Control of Your Apple Account** Glenn Fleishman, 2024-09-20 Prevent or solve problems with your Apple Account Version 1.1 updated February 26, 2025

The center of the Apple world is your Apple Account. This little identifier ties up your access to iCloud, to purchased and streaming music, TV, and movies, and to all your devices. While an Apple Account is essential, Apple has made it difficult to navigate the many features associated with it, and particularly to troubleshoot and resolve problems that crop up. This book answers dozens of questions and guides you through solutions. It also explains how to use security recovery and other features tied to your Apple Account. Everything Apple relies on your Apple Account. It's a key that unlocks a long list of Apple products and services on any of numerous devices. iCloud uses an Apple Account, as does Apple Music, the App Store, the Music TV, and Books apps, and more. An Apple Account protects your personal information, including email, and iOS/iPadOS backups help you find a lost iPhone, iPad, Mac, or Apple Watch, and can even unlock your Mac. So it goes without saying that if something goes wrong with your Apple Account, you could be in for a world of hurt. Unfortunately, things go wrong with Apple Accounts all the time. Fortunately, Glenn Fleishman, a veteran technology journalist and the author of Macworld's Mac 911 column, is ready to help with expert advice on how to manage your Apple Account, including how to prevent, solve, or work around most common problems. This book is fully up to date with all the changes released by Apple in 2024 connected to your Apple Account, including the change of name from Apple ID to Apple Account, as well as for iOS 18, iPadOS 18, macOS 15, Sequoia, watchOS 11, tvOS 18, and other Apple products and services. In this book, Glenn answers questions like: What all is my Apple Account used for? How does my iCloud account relate to my Apple Account? What's two-factor authentication, and how do I manage it, and not get locked out of my account? Should I invest in hardware security keys to up the protection of my Apple Account? Are there other mechanisms I can use to ensure that I can recover an Apple Account in the event of a problem? Spoiler: yes! What should I do if I have two or more Apple Accounts or iCloud accounts? Will I lose access to all my Apple media purchases if I move to another country? Can I share an Apple Account with someone else? What does an Apple One subscription offer, and how does it interact with Family Sharing and iCloud storage tiers? Is there an explanation for how code-based and hardware-based second factors protect my account, and how they differ from passkeys? Yes! What exactly should I do if I think someone is hacking my Apple Account? How can I recover a forgotten Apple Account password? What happens if I'm assaulted or drugged, and someone gains access to my iPhone passcode and resets my Apple Account? Sadly, a too-real if-uncommon problem. What steps should I take if Apple locks me out of my account? If I lose access to an email address associated with my Apple Account, what can I do? What Apple Account changes in recent versions of iOS/iPadOS and macOS do I need to know about? How can I use Family Sharing to share data and purchases within my family? What types of subscriptions can I manage with my Apple Account, and how? Which payment methods can I associate with my Apple Account?

and how do I manage them And that s just the beginning Glenn has packed a remarkable amount of concise problem solving information into this comprehensive book Read it before you encounter Apple Account problems to minimize your risk and if you ve already encountered a problem read it to find the best path to a rapid solution      **My iPhone for Seniors (Covers iPhone 7/7 Plus and other models running iOS 10)** Brad Miser,2016-11-15 Easy clear readable and focused on what you want to do Step by step instructions for the tasks you care about most Large full color close up photos with callouts to iPhone photos that show you exactly what to do Common sense help when you run into iPhone problems or limitations Tips and notes to help you get the most from your iPhone Full color step by step tasks walk you through getting and keeping your iPhone working just the way you want The tasks include how to Connect to the Internet Bluetooth devices Wi Fi networks and other iPhones iPod touches and iPads take advantage of AirDrop to instantly share with other iOS and Mac users around you Use Siri to get information write texts and emails set reminders appointments and more just by speaking to your iPhone Customize your iPhone with folders wallpaper ringtones and much more Configure and sync your information and efficiently manage contacts and calendars Communicate via phone calls FaceTime videoconferences conference calls text email and more Make your text messages come alive by adding Digital Touches and effects Make the most of Safari to browse the Web and Mail to manage all of your email from one Inbox Listen to podcasts listen to music with Music find your way with Maps and use other great iPhone apps Capture and edit photos and video use great camera features such as burst photos time lapse photos and slow motion video and Live Photos View your photos in memories and use them for wallpaper and for your contacts Find download install and use awesome iPhone apps Take advantage of iCloud to keep your content and information in sync on all your devices      *My iPhone (Covers iPhone 4, 4S and 5 running iOS 6)* Brad Miser,2012-10-11 Step by step instructions with callouts to iPhone images that show you exactly what to do Help when you run into iPhone problems or limitations Tips and Notes to help you get the most from your iPhone Full color step by step tasks walk you through getting and keeping your iPhone working just the way you want The tasks include how to Connect to the Internet Bluetooth devices Wi Fi networks and other iPhones iPods and iPads Use Siri to get information write texts and emails set reminders appointments and more just by speaking to your iPhone 4S and newer Customize your iPhone with folders wallpaper ringtones and much more Configure and sync your information and efficiently manage contacts reminders and calendars Communicate via FaceTime videoconferences conference calls text email and more Make the most of Safari to browse the Web and Mail to manage all of your email from one inbox Listen to music subscribe to podcasts and watch video including movies and TV shows Capture and edit photos and video Use your photos in slideshows for wallpaper and your contacts or share them via email Cloud and texts use PhotoStream to automatically save and share your photos Find download install and use awesome iPhone apps Take advantage of iCloud to keep your content and information in sync on all your devices **BONUS MATERIAL** Download a bonus chapter titled Using Cool iPhone Apps as well as additional tasks and other helpful information
