Europe and beyond Cutting through the hysteria that has characterised so much of the initial commentary it seeks to place these events in their wider global context untangling the complex symbolic web woven around Charlie Hebdo to pose the fundamental question how best to combat racism in our supposedly post racial age *The Charlie Hebdo Affair and Comparative Journalistic Cultures* Lyombe Eko,2019-11-14 The Charlie Hebdo terrorist attack of January 7 2015 shook French journalism to the core and reverberated around the world triggering a cascade of responses from journalists media outlets cartoonists and caricaturists from diverse geographies of freedom of expression and journalistic cultures This book is a multifaceted case study that describes and explains sameness and difference in diverse journalistic conceptualizations of the Charlie Hebdo affair from a comparative international perspective It explores how different journalistic traditions cultures worldviews and styles conceptualized and reacted to the clash between freedom of expression and respect for religious sentiments in the context of terrorism where those sentiments are imposed on the media and secular societies through intimidation coercion and violence The book analyzes the political and cultural clashes between the core human right of freedom of expression and rite of respect for religious sentiments which is situated on the outer periphery of the human right of freedom of religion It also examines how media outlets editors and cartoonists from different politico cultural contexts and journalistic cultures in Africa Asia Europe the Middle East and North and South America addressed the delicate issue of Mohammed cartoons in general and the problem of re publication of the controversial Charlie Hebdo Je Suis Charlie Mohammed cartoon in particular

The Collapse of Freedom of Expression Jordi Pujol,2023-02-15 This book offers a holistic account of the problems posed by freedom of expression in our current times and offers corrective measures to allow for a more genuine exchange of ideas within the global society The topic of free speech is rarely addressed from a historical philosophical or theological perspective In *The Collapse of Freedom of Expression* Jordi Pujol explores both the modern concept of the freedom of expression based on the European Enlightenment and the deficiencies inherent in this framework Modernity has disregarded the traditional roots of the freedom of expression drawn from Christianity Greek philosophy and Roman law which has left the door open to the various forms of abuse censorship and restrictions seen in contemporary public discourse Pujol proposes that we rebuild the foundations of the freedom of expression by returning to older traditions and incorporating both the field of pragmatics of language and theological and ethical concepts on human intentionality as new complementary disciplines Pujol examines emblematic cases such as Charlie Hebdo free speech on campus and online content moderation to elaborate on the tensions that arise within the modern concept of freedom of expression The book explores the main criticisms of the contemporary liberal tradition by communitarians libertarians feminists and critical race

theorists and analyzes the gaps and contradictions within these traditions Pujol ultimately offers a reconstruction project that involves bridging the chasm between the secular and the sacred and recognizing that religion is a font of meaning for millions of people and as such has an inescapable place in the construction of a pluralist public sphere
