Learning from Other Religions David Brown, 2023-11-16 One common argument against taking the notion of divine revelation seriously is the extraordinary diversity which exists between the world's major religions How can God be thought to have spoken to humanity when the conclusions drawn are so very different David Brown authoritatively and persuasively tackles this issue head on He refutes the idea that all faiths necessarily culminate in Christianity or that they can be reduced to some facile lowest common denominator arguing instead that ideas may emerge more naturally in one context than another Sometimes because of its own singular situation another religion has proved to be more perceptive on a particular issue than Christianity At other times no religion will hold the ultimate answer because what can be asserted is heavily dependent on what is viable both scientifically and philosophically Although complete reconciliation is impossible a richer notion of revelation so the author suggests can be the result

Representing Religion Tim

Murphy,2014-12-05 If religion is continually in a state of flux how can the study of religion critically examine contemporary religious beliefs and values Representing Religion critically examines this crisis of representation The volume traces the history of religious studies critiquing the concept that experience is central to understanding religion The views of influential semioticians and philosophers notably Nietzsche Saussure Foucault Barthes and Bakhtin are used to construct a new methodology for the critical study of religion Representing Religion will be of interest to students and scholars of semiotics as well as theory and method in religious studies *Four Overarching Patterns of Culture* Robert Strauss,Christopher Strauss,2019-08-20 Justice has been the dominant cultural framework of people in the West for two centuries ever since the rise of constitutional democracies Consciously or not most people in the West have a strong awareness of right and wrong Their sense of morality is generally rooted in an obligation to the rule of law In democratic societies the rule of law ultimately relies on constitutional documents ratified by a widely accepted process of development and implementation For millennia honor has been the dominant cultural framework of most people in the East and Middle East Here people know that speech and behavior display respect or disrespect While pervasive in all relationships honor and shame are most important in the family extended family and local community In the East honor is not necessarily an internal feeling as it is in a justice culture Honor is more often an external attribution bestowed by others rather than claimed by oneself Harmony is prevalent globally in indigenous cultures Many indigenous peoples do not distinguish between the supernatural and natural worlds All aspects of life are connected Interactions with spirit beings are the key to maintaining harmony in order to be secure Reciprocity is a common cultural framework in the Global South Here one learns to develop connections with the right people in given circumstances for needed resources These connections may or may not be characterized as friendships and provide not so much close friendships as reciprocal exchange In some places reciprocity is the means whereby one survives What the World Needs to Know about Interfaith Dialogue Richard M Landau,2014-04-17 What the World Needs to Know about Interfaith Dialogue Second Edition is a non fiction handbook and guide for the increasing numbers of people who are becoming involved with interfaith dialogue Written in an accessible style the work explains how to overcome basic differences and yet ensure the longevity and productivity of an interfaith dialogue group So many dialogue groups grind to a halt because of group politics differences in approach and no sense of what the group should do beyond talking What the World Needs to Know about Interfaith Dialogue addresses all of these issues based on author Richard M Landau s observations of both failed and successful interfaith dialogue groups over the past 30 years Readers will come away with a knowledge of the tools required to start and conduct successful interfaith or inter denominational dialogue It will aid the reader to build bridges of understanding resolve conflicts and identify problems before they develop The Future of God in the Global Village Thomas R. Mcfaul,2011-10 In the long trek of human history the adage that there will never be peace among the nations until there is peace among the religions has never been truer The growing trend toward spiritually

inspired violence throughout the emerging global village of the twenty first century has taken a terrible toll on the lives of thousands of innocent victims The primary purpose of this book is to address this issue head on by examining the role that the earth s diverse faith communities can play in stopping the needless hatreds and hostilities that all too often arise from the search for spiritual fulfillment At this stage of human evolution nothing is more urgent **The Sacred Is the Profane**

William Arnal,Russell T. McCutcheon,2013 The Sacred Is the Profane collects nine essays written over several years by William Arnal and Russell T McCutcheon that share a convergent perspective not simply that both the category and concept religion is a construct something that we cannot assume to be natural or universal but also that the ability to think and act religiously is quite specifically a modern political category in its origins and effects the mere by product of the modern state These collected essays substantially rewritten for this volume advance current scholarly debates on secularism debates which the authors argue insufficiently theorize the sacred secular church state and private public binaries by presupposing religion often under the guise of such terms as religiosity faith or spirituality to historically precede the nation state The essays return again and again to the question of what religion word and concept accomplishes now for those who employ it whether at the popular political or scholarly level The focus here for two writers from seemingly different fields is on the efficacy costs and the tactical work carried out by dividing the world between religious and political church and state sacred and profane **Living Religions, Books a la Carte Edition Plus New Myreligionlab with Etext -- Access Card**

Problematising Religious Freedom Arvind Sharma,2011-08-08 The concept of religious freedom is the favoured modern human rights concept with which the modern world hopes to tackle the phenomenon of religious pluralism as our modern existence in an electronically shrinking globe comes to be increasingly characterised by this phenomenon To begin with the concept of religious freedom as embodied in Article 18 of the Universal Declaration of Human Rights seems self evident in nature It is the claim of this book however that although emblematic on the one hand the concept is also problematic on the other and the implications of the concept of religious freedom are far from self evident despite the ready acceptance the term receives as embodying a worthwhile goal This book therefore problematizes the concept along legal constitutional ethical and theological lines and especially from the perspective of religious studies so that religious freedom in the world could be enlarged in a way which promotes human flourishing

Spiritual Masters of the World's Religions Victoria Kennick,Arvind Sharma,2012-12-28 What is a spiritual master Spiritual Masters of the World s Religions offers an important contribution to religious studies by addressing that question in the context of such themes as charismatic authority role models symbolism and categories of religious perception The book contains essays by scholar practitioners on the topic of spiritual masters in Judaic Christian Islamic Hindu Sikh Buddhist Confucian and Daoist traditions It provides a full spectrum of exemplars including founders spiritual masters who highlight cultural themes and problematic figures of modern times To define spiritual master the work of Max Weber Mircea Eliade Daniel Gold and Bruce Lincoln is referenced to provide a balanced notion that includes both religionist and reductionist perspectives This book takes readers from the past spiritual masters to the future of masters of any sort posing food for thought about the future of master disciple relationships in an emerging age of egalitarian sentiments

After World Religions Christopher R Cotter,David G. Robertson,2016-02-05 The World Religions Paradigm has been the subject of critique and controversy in Religious Studies for many years After World Religions provides a rationale for overhauling the World Religions curriculum as well as a roadmap for doing so The volume offers concise and practical introductions to cutting edge Religious Studies method and theory introducing a wide range of pedagogical situations and innovative solutions An international team of scholars addresses the challenges presented in their different departmental institutional and geographical contexts Instructors developing syllabi will find supplementary reading lists and specific suggestions to help guide their teaching Students at all levels will find the book an invaluable entry point into an area of ongoing scholarly debate
