## **Living With The Whiddy Disaster:**

*Living with the Whiddy Disaster* Brian McGee, 2014-12-06 Living with the Whiddy Disaster presents a vivid and fascinating first hand account of Ireland's worst ever maritime disaster when 50 people lost their lives in the early morning of January 8 1979 after a fire broke out aboard the Betelgeuse a French owned oil tanker at the Gulf Oil Terminal in Bantry Bay Brian McGee is the last surviving member of the Gulf Oil crew on Whiddy Island on that fateful night With other colleagues he fought non stop through the night to prevent the inferno spreading to the 12 oil tanks on the island which would have had disastrous consequences for the town of Bantry His bravery and that of his co workers was recognised at the time and remarked upon in the subsequent Tribunal of Inquiry set up by the government Although Brian had his life spared that night unlike seven other Gulf employees and the crew of the Betelgeuse the disaster took its toll by sending him into a mental hell that he would have to endure for many years bringing him close on a number of occasions to suicide He tells the tale of his recovery after a long battle and how he found the solution in a new found spirituality and a rediscovery of his faith He also criticises strongly the findings of the Tribunal of Inquiry into the disaster which he believes were unjust in their treatment of one particular individual and consequently diverted attention away from those who were really to blame [Irish Sea Study](#)

and the Irish state Amanda Slevin,2016-07-22 Gas and oil are pivotal to the functioning of modern societies yet the ownership  
control production and consumption of hydrocarbons often provokes intense disputes with serious ramifications Gas oil and  
the Irish state examines the dynamics and conflicts of state hydrocarbon management and provides the first comprehensive  
study of the Irish model Interpreting the Corrib gas conflict as a microcosm of the Irish state s approach to hydrocarbon  
management the book articulates environmental health and safety concerns underpinning community resistance to the  
project It emphasises how the dispute exposed broader issues such as the privatisation of Irish hydrocarbons in exchange for  
one of the lowest rates of government take in the world and served to problematise how the state functions its close  
relationship with capital and its deployment of coercive force to repress dissent Analysis of these issues occurs within an  
original account of decision making and policy formation around Irish hydrocarbons from 1957 to 2014 The book traces the  
development of the state s approach in tandem with occurrences in Irish political economy and examines the impact of global  
trends on different approaches to hydrocarbon management A comparative case study of Norway reveals ideological political  
social and economic forces which influence how states manage their hydrocarbons factors which the book uses as the basis
