**Cooking in America, 1840-1945** Alice L. McLean, 2006-08-30 This cookbook covers the years 1840 through 1945 a time during which American cookery underwent a full scale revolution Gas and electric stoves replaced hearth cookery Milk products came from commercial dairy farms rather than the family cow Daily meals were no longer bound by seasons and regions as canned bottled and eventually frozen products flooded the market and trains began to transport produce and meat from one end of the country to the other During two World Wars and the Great Depression women entered the work force in unprecedented numbers and household servants abandoned low paying domestic jobs to work in factories As a result of these monumental changes American home cooking became irrevocably simplified and cookery skills geared more toward juggling time to comb grocery store shelves for the best and most economical products than toward butchering and preserving an entire animal carcass or pickling fruits and vegetables This cookbook reflects these changes with each of the three chapters capturing the home cooking that typified the era The first chapter covers the pre industrial period 1840 to 1875 during this time home cooks knew how to broil roast grill fry and boil on an open hearth flame and its embers without getting severely injured They also handled whole sheep carcasses made gelatin from boiled pigs trotters grew their own yeast and prepared their own preserves The second chapter covers 1876 through 1910 a time when rapid urbanization transformed the United States from an agrarian society into an industrial giant giving rise to food corporations such as Armour Swift Campbell's

Heinz and Pillsbury The mass production and mass marketing of commercial foods began to transform home cooking meat could be purchased from a local butcher or grocery store and commercial gelatin became widely available While many cooks still made their own pickles and preserves commercial varieties multiplied From 1910 to 1945 the period covered by Chapter 3 the home cook became a full fledged consumer and the national food supply became standardized to a large extent As the industrialization of the American food supply progressed commercially produced breads pastries sauces pickles and preserves began to take over kitchen cupboards and undermine the home cooks ability to produce their own meals from scratch The recipes have been culled from some of the most popular commercial and community cookbooks of the nineteenth and early twentieth centuries Taken together the more than 300 recipes reflect the major cookbook trends of the era Suggested menus are provided for replicating entire meals *The New Yorker* Harold Wallace Ross, William Shawn, Tina Brown, David Remnick, Katharine Sergeant Angell White, Rea Irvin, Roger Angell, 1929 **Good Food Simply Prepared** Joan Styron, 2005-11 Good Food Simply Prepared is a different type of cookbook A collection of recipes from three generations of one family each chapter has a story depicting the home values and traditions that have influenced the style of food prepared as family members became assimilated into American culture Many of the recipes have been supplemented with an anecdote or story and all recipes have been tested for accuracy Various recipes have been tasted and critiqued by friends who enjoy good food It is with great pleasure that I share my recipes my stories and friends comments I hope you enjoy my creative endeavors and find inspiration to spark your own Once when I asked friends over for dinner they asked me to select a menu reflecting my heritage During that dinner the conversation centered on the intrigue of the history associated with family recipes and food traditions The exchange of stories that evening inspired me to write my personal history along with the recipes with the hope that my stories will bring enjoyment to others In this way I would create a book that would reflect my life and career my memoirs Lobster Shacks: A Road-Trip Guide to New England's Best Lobster Joints (2nd Edition) Mike Urban, 2016-05-24 The newly updated tour of New England's best roadside seafood Lobster Shacks is a fun road trip style guide to the 75 or so best shacks in New England starting in Connecticut and heading north and east through Rhode Island Massachusetts New Hampshire and Maine Each shack entry features a lively description which includes historical background biographical portraits of the owners past and present highlights from the menu and driving directions Scattered throughout the guide you will find feature recipes lobster shack legends and lore and information on local fishing fleets Author Mike Urban is a veteran shack aficionado with years of experience searching for the best shacks and he hit the road again in 2015 to update this new edition In short whatever fits the lobster shack zeitgeist and spirit will find its way into this unique guide **100 SEAFOOD RECIPES** JESSICA INGLATERRA, 2024-02-03 Discover the universe of exotic and tempting flavors with our exclusive eBook Marine Treasures 100 Seafood Recipes This meticulously curated collection will take you on an exciting culinary journey exploring from irresistible classics to contemporary creations that will surely delight your palate
