A Study Guide for Lois Lowry's "Number the Stars" Gale, Cengage Learning, 2016-06-29 A Study Guide for Lois Lowry's *Number the Stars* excerpted from Gale's acclaimed *Novels for Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Novels for Students* for all of your research needs.

The Bloomsbury Handbook of Reading Perspectives and Practices Bethan Marshall, Jackie Manuel, Donna L. Pasternak, Jennifer Rowsell, 2020-10-15 Shortlisted for the UK Literacy Association's Academic Book Award 2021. *The Bloomsbury Handbook of Reading Perspectives and Practices* focuses on the experiences of reading from a young age to maturity and the different ways reading is encountered in other words, the processes involved as well as the outcomes. The international group of experts within both teaching and academia focuses on reading in school: how is it taught? What is taught? How is it assessed? Controversial issues are explored, the acquisition of phonics, teaching the canon, including or ignoring digital texts, the advent of standards-based tests. The contributions also consider people's biographies of reading, their memories of reading in school, and their current views on literature. Together, this well-edited volume provides a more complete view of reading than is currently on offer, exploring all aspects of what it means to be literate and how we define being literate.

Around the World with Historical Fiction and Folktales Beth Bartleson Zarian, 2004 As more school districts undergo the painstaking task of curriculum integration, resources that offer children an opportunity to live vicariously in times and places they cannot experience any other way become increasingly necessary. Whether two teachers are covering the same topic in separate classes (e.g., English and history) or designing a thematic unit with the school librarian, this book will assist all parties in the selection of high-quality literature. In this handy guide to nearly 800 award-winning historical fiction for Kindergarten through 8th grade, Beth Zarian literally spans the globe. Entries are first divided into three sections: American history, world history, and myths and folklore, then chronologically from prehistoric times to present day, and finally by grade level. Each entry is accompanied by a short annotation. For anyone wishing to teach historical facts in an entertaining way, *Around the World with Historical Fiction and Folktales* is the only way to travel.

School Library Journal, 2005

Technology to Teach Literacy Rebecca S. Anderson, Michael M. Grant, Bruce W. Speck, 2008 *Technology to Teach Literacy: A Resource for K-8 Teachers*, second edition, is designed to provide teachers with an array of computer tools to promote reading, writing, and critical thinking in their classrooms. This text can be used not only in a preservice course but also by seasoned teachers who recognize the need to continue their education by becoming adept at using computers in their classrooms. In short, this book covers the major concerns K-8 teachers face as they integrate computer technology into their classrooms and provides numerous suggestions for applying the ideas described in the text in real classrooms. The discussion of literacy topics and pedagogy is grounded in research, literature, best practice for teaching, and current successful technology integration strategies. Publisher description.
