unique interdisciplinary understandings of the dual concepts of mobile language and border crossings from crossings in virtual life and real life to crossings in literature and translation and finally to crossings in the semioscape of tourist guides and tourism signs This book was originally published as a special issue of Language and Intercultural Communication

Constructing Cultural Tourism Keith Hanley, John K. Walton, 2010-11-15 This book is an interdisciplinary collaboration between a literary critic and cultural historian which examines and recovers a radical and still urgent challenge to the industrialisation of cultural tourism from the work of John Ruskin Ruskin exerted a formative influence on the definition and development of cultural tourism which was probably as significant as that for example of his contemporary Thomas Cook The book assesses Ruskin's overall influence on the development of national and international tourism in the context of pre-existing expectations about tourism flows and cultural capital and alongside parallel and intersecting trends of the time examines Ruskin's contribution to the tourist agenda at all social levels and discusses Ruskin's significance for current debates in tourism studies especially questions of the place of the canon of traditional European cultural tourism in a post-modern tourist setting and the various incarnations of heritage tourism

Exploring the Use and Impact of Travel Guidebooks Victoria Peel, Anders Sørensen, 2016-02-04 This volume provides the first comprehensive examination of travel guidebooks and their conceptualisation use and impact Guidebooks have been key tourism paraphernalia for almost two centuries and although researched in some areas academic knowledge on guidebooks in tourism has not been expansively communicated The uncritical unreflective and largely pejorative approach to guidebooks in the public sphere and to some degree also present in academia is reassessed in this book This challenges the current limited tourism research approaches to the topic including the routinely held assumption that the internet has all but destroyed the printed guidebook This book will be a useful resource for postgraduate students and researchers in tourism and tourism communications and consumption
